In this café, participants will get to explore what happens in a mental health clinic when a potential client comes in for an intake with a psychiatrist or psychologist. You will learn about key symptoms of several mood and developmental disorders. By knowing the symptoms and what to look for you will gain an understanding of what is being assessed and how mental health care professionals can tell the differences between disorders to ensure they choose a helpful intervention. Participants will also be given some case studies to review to try to make decisions about which intervention is needed.

**ABOUT OUR SPEAKERS**

**Feyza Basoglu MD**, is a child and adolescent psychiatrist. She got her medical degree in Istanbul University School of Medicine. She completed her adult psychiatry training at Berkshire Medical Center, University of Massachusetts and Child and Adolescent psychiatry fellowship at University of Vermont. She currently does her clinical work at Howard Center and Counseling Service of Addison County. She has a passion to teach and has medical students in her clinics for their rotations. She is fascinated with human interactions and feels privileged to be a part of their healing process on a daily basis.

**Sharon Leach, Ph.D.**, is a Clinical Neuropsychologist. She completed her undergraduate degree in psychology at UC San Diego and her doctorate training at University of Miami in FL. As needed in the field of neuropsychology, she completed her clinical internship and post-doctoral work at West Virginia University. She currently conducts clinical neuropsychological evaluations at the Stern Center for Language and Learning in Williston VT. She has a strong interest in understanding how brain function is related to thinking, mood, and behavior. She is motivated by helping people learn about themselves and assisting youth, their parents, teachers, and medical/mental health providers with reaching their goals and providing appropriate and helpful interventions when needed, because *All Great Minds Don’t Think Alike*.

**What is a Virtual Teen Science Café?** It is a free, fun way for teens to explore science, engineering and technology with local scientists, engineers and technology experts. Teens will “meet a scientist”, learn about their work, and be able to participate in informal discussions.

**Questions?** Contact lauren.traister@uvm.edu

To request a disability-related accommodation to participate in this program, please contact the 4-H Office at 802-888-4972 or lauren.traister@uvm.edu by May 1, 2020 so we may assist you.
