**IMPORTANT:** We know this pandemic has been stressful to many and recognize that socializing and interacting with peers can be a healthy way for children to cope with stress and connect with others, particularly after spending quite a bit of time at home. We hope to be able to offer the Natural Resources Management Academy and are awaiting final approval. We will notify interested participants as soon as registration opens.

Are you a student entering 7th-12th grade in the Fall who is interested in the environment and ready to explore, in depth, your passion for Vermont's natural resources?

If you answered yes to this question, then you should attend the Natural Resources Management Academy (NRMA). Come ready to explore natural resources management, and share a day with other youth from around Vermont who have the same interests.

NRMA has been developed for individuals just like you!

You will have the opportunity to take in-depth, hands-on workshops with experts. Each workshop will allow for extensive in-the-field exploration of the subject matter.

**2021 Tentative Workshops**

- Plants in a Changing Climate
- Watershed Science
- Aquatic Ecology
- Forestry

In addition to these workshops, participants will engage in fun team building activities at the start of the day and end playing the Pollination Game to deepen their learning about climate change.

**Space is limited to 40 participants — sign up to be notified when registration opens!**

**NRMA will be held at the Green Mountain Conservation Camp in Woodbury, VT.**

**Go to: <https://www.surveymonkey.com/r/nrmalist> to add your name and email to be notified.**
