Become a Teen Teacher!

TRY FOR THE ENVIRONMENT

IMPORTANT CHANGES FOR 2020-2021
TRY stands for Teens Reaching Youth and is an environmental leadership opportunity for students in grades 7-12. It is an environmental education program taught by teens and designed to increase environmental literacy and responsibility in younger youth. TRY for the Environment connects young people to real-world environmental problems by allowing them to be key change agents contributing to real-world solutions.

NEW for 2020-2021: Due to Covid-19 restrictions, the TRY program will be limited to two content areas. Each content area will consist of three, 45 minute lessons that are designed to be delivered virtually - either when students are in the classroom or at home. As in past years, teens will be required to teach the lessons to two different groups of students. We will offer the TRY teaching opportunity to teens twice - Session 1 (January - March with training in December) and Session 2 (March - May with training in February). 10 teams will be accepted for each session - 5 teams in each content area.

Content areas include:

**Climate Change Through Waste Solutions** focuses on the 4Rs—reduce, reuse, recycle and rot. Grades 1-3

**4-H2O** dives into watershed science, exploring water quality, quantity and biologic monitoring. Grades 3-4.

**Important Note:** All teen teacher trainings will be delivered online. You will be required to watch pre-recorded videos and do some team work before attending two live virtual training sessions. The live training sessions are scheduled for:

**Session 1**
- Monday, December 7 and Tuesday, December 8, 2020 from 4:00 - 5:30 pm (Waste Solutions)
- Thursday, December 10 and Friday, December 11, 2020 from 4:00 - 5:30 pm (4-H2O)

**Session 2**
- Monday, February 15 and Tuesday, February 16, 2021 from 4:00 - 5:30 pm (Waste Solutions)
- Thursday, February 18 and Friday, February 19, 2021 from 4:00 - 5:30 pm (4-H2O)
