

WATER QUALITY BUSINESS ANALYSIS

UVM Extension farm business educators are available to work with dairy and livestock farm owners to assess and plan for business changes to meet water quality goals. Farm owners can work one-on-one with a business educator to evaluate the feasibility and impact of changes facing the farm and business. Topics for business support include:

STRATEGIC PLANNING FOR YOUR FARM

- Analysis of current business cash flow and budget
- Infrastructure improvements
- Farm transfer or exit planning

INTEGRATING CONSERVATION AND BUSINESS PLANNING

- Assessing the adoption of new practices and new investments
- Coordination of water quality project advisors
- Grant and loan application guidance
- Making the necessary referrals to other in-depth business planning resources
