IMPORTANT NOTES:

- 1) *Students who do score high enough on the Math Readiness Test must take Math 10 prior to taking Math 22; students who started in Math 19 may take Math 23 instead of taking Math 21+22.
- 2) The following courses are generally offered in both fall and spring semesters, so there is a lot of flexibility as to when you take what:
CS 8, 21, 64, 110, 121, 124, 125, and 292; Math 10, 21, 22; Stat 143, 141, 151; Engl 1
The example course sequences shown above are just two of many ways you can complete your requirements in 4 years.
- 3) Shown above are only the CS, Math, and writing core requirements; Students must also fulfill their Science requirements (3 courses), Humanities & Social Science Requirements (6 courses, including D1 and D2), satisfy minor requirements, and complete at least 120 credits (i.e. average at least 15 credits per semester).
