The Community College of Vermont (CCV) is a public, two-year, open admissions institution providing degree, transfer, and continuing education opportunities. The Winooski CCV campus serves approximately 2,000 students each semester in day, evening, and weekend courses. This internship presents an opportunity to work with the most diverse higher education community in Vermont. CCV students represent a variety of races, ethnicities, ages, professions, and economic groups. Projects are flexible and could include individual and small group mentoring, faculty professional development, student retention initiatives, supporting English Language Learners, and working with students to gain developmental skills and college success habits."
