### Enrollment and Degree Completion Rates

The Counseling Program is designed for students to be able to complete degree requirements within two to three years depending the student’s selected focus: two years for full time School Counseling, two and one half years for full time Clinical Mental Health, and three years for those completing both tracks (Dual track). Part-time students tend to take an average of four years to complete the program requirements.

### Counseling Program Retention and Completion Rates

### Pass Rates for Licensure and Degree Completion Exams

In addition to comprehensive exams, all students enrolled in the School Counseling Track are required to complete a School Counseling Licensure Portfolio, which is a comprehensive State assessment that draws primarily from the candidate’s internship experiences and course assignments aligned with School Counseling standards.

Counseling program students are not required to take the National Counselor Examination (NCE) for program completion. However, many states require passing NCE scores for licensure, including the State of Vermont. Therefore, students are encouraged to take the NCE during their final semester if they wish to pursue licensure as a Clinical Mental Health Counselor.

### Pass Rates: Oral Comprehensive Exam, Education State Licensure Portfolio, National Counselor Examinations
