

2018 Vermont Population Brief

From the Vermont State Data Center

Source: American Community Survey

Total Population	2006-2010 ACS 5-year estimate	2012-2016 ACS 5-year estimate	Percent Change
Vermont	624,258	626,249	0.3%
Northeast	54,909,218	56,065,769	2.1%
Midwest	66,514,091	67,676,480	1.7%
South	112,072,990	119,755,723	6.9%
West	70,468,973	75,060,190	6.5%
U.S.	303,965,272	318,558,162	4.8%

- Vermont's population increased by 0.3% between the 2006-2010 and 2012-2016 time periods.
- Population increased in all regions and the U.S., overall.
- The Southern region of the U.S. had the largest percentage increase of 6.9% while the Midwest had the lowest at 1.7%.
- Among U.S. states, Vermont had the fifth lowest population change after Michigan & Rhode Island (both experienced pop decreases), Maine & West Virginia.

About the Vermont State Data Center

The Vermont State Data Center, funded through the Agency of Commerce and Community Development:

- Coordinates with the U.S. Census Bureau on local data collection and feedback processes to ensure efficient and accurate VT data production;
- Represents Vermont data producers and users at the Federal level;
- Provides technical assistance to VT data users in accessing and using Census data, and;
- Conducts outreach and education that facilitates data-driven research, administration, planning and decision-making.
