

Admitted to LASP for Fall 2023? Wondering about next steps?

Congratulations! Here is some information you may find helpful. After May 1, your New Student Online Checklist will be the key resource.

May 1 – Deadline to commit to UVM

Students who have committed to UVM and been admitted to LASP do not have to take any further action step to accept the spot in LASP.

May 5 – Deadline to fill out housing preference form

The form requires everyone to rank their LC preferences. You'll need to do it but it is irrelevant for LASP students as they will be in the LASP LC and housed with LASP in University Heights. There are additional sections of the form that ask about other preferences including room type and meal plan. The form allows you to identify a preferred roommate. We encourage you to consider being assigned a LASP roommate randomly. If you would like to connect with other students who will be in LASP, you can find one another on the LASP patio group of the Class of '27 Facebook page. If you choose with another student to preference one another as roommates, both of you have to be in LASP. You do not have to be in the same LASP theme – for example, a Social Science Scholar could preference a roommate who is in Life Science Scholars.

May 23-May 30 – UVM GO Lottery Open (pre-Orientation program)

Read more about [UVM GO](#) here. More details on the LASP GO program in the next few weeks.

June 1– Course Registration & Advising

You will receive an invitation via your UVM email to sign up for a course registration advising appointment. Appointments will be held from June 12-July 7. When possible, your appointment will be with the director of your LASP program where you will review and finalize your fall schedule. You will be pre-registered into course(s) for your major (if declared), and your LASP courses.

Early June – LASP online room selection

Keep an eye out for an email from Residential Life that will prompt you to go online and see your lottery date/time when you will select your actual room space.

August – Orientation and pre-Orientation activities
