UVM's nationally recognized academic programs are led by our award-winning faculty who serve as mentors. Through community-engaged experiences, our students discover their strengths and develop their skills at field sites reflecting the diverse cultures and backgrounds in our community – always with personalized support from expert faculty and staff.

Prepare for Success

The quality of our students' preparation is recognized and highly valued. CESS graduates are uniquely positioned for success in rewarding careers where they begin changing lives for the better as soon as they graduate.
