**Minimum Total Credits Required for Degree: 129**

**This document is an advising tool and should be used in combination with a student's degree audit, as well as the published Catalogue for 2023-2024 found at <http://catalogue.uvm.edu/>**

**Prerequisite courses** are listed below the course name in italics. Prerequisites listed are only for courses, as relevant to your specific degree program, and may have other registration restrictions. Please refer to the catalogue.

\* Grade of C- or higher required

Design Elective: Please refer to your degree audit to see course options.

CEE Elective: Please refer to your degree audit to see course options.

CEE/Science/Technical Elective: Any 2000-level or higher course in CEE as well as BME, EE, ENGR, EMGT (except EMGT 2041), ME or Science (BIOL, CHEM, GEOL, PHYS, MMG).

**Catamount Core:** Students may take courses that fulfill more than one Catamount Core requirement, but they must still take at least 40 unique credits of courses that have been approved to fulfill Catamount Core requirements. It is possible that a single course can be counted toward more than one category. A minimum of 12 credits must be on D1/D2, AH1/AH2, and S1 courses. Up to 6 credits could then be applied to Free Electives (e.g. internship, toward minor, toward double major, etc.)

Students are encouraged to overlap Catamount Core requirements with their PLHC required courses (HCOL 1500 and both HCOL 2000 courses)

<sup>++</sup> CEE 2996 can count as a Science/Tech Elective in fall of senior year. In order for it to count as a CEE Elective, students will need permission from their advisor and department chair.
