

# Civil & Environmental Engineering (CEE)

## Paid Undergraduate Research Internships

This is a Research Experience for Undergraduates (REU) opportunity to work directly with a CEE faculty and graduate students on a research project of mutual interest throughout the semester.

The program pays \$600 for about 48 hours of work over the course of the semester.

The REU is expected to commit about five hours per week to work on their research.

### Process:

- CEE students apply in the second week of the semester via Student Employment JobX using one of the following codes.
  - NON – Work Study funds: 5061
  - With Work Study Funds: 8931
- Students are required to submit their resume, a brief 250 word description of the research they are interested in, and mention if they have already spoken to a CEE faculty about their research.
- If they have not spoken to a CEE faculty, use the 250 words to describe two to three potential research interests.
- Usually 10 to 15 REU spots are available.
