August 2020

Welcome!

On behalf of the faculty and staff, it is my great pleasure to welcome you to The University of Vermont Department of Nursing. The Department boasts a proud heritage of preparing individuals for professional nursing practice by providing a comprehensive and integrated educational experience. We view your undergraduate education as your initial step in a process of lifelong learning as a professional nurse.

The faculty, staff, and I look forward to guiding and supporting your efforts, as you earn your baccalaureate degree in nursing. Education is a collaborative endeavor. Thus, we are prepared to work with you as you build the requisite knowledge base and acquire the skills necessary for professional nursing practice. Communication is essential in this process. We will remain in dialogue with you, advise you, and provide you with feedback throughout your educational experience. I urge you to communicate with faculty members, staff, or myself whenever you have a question, a concern, a suggestion, or just need to talk with someone.

By choosing to study at The University of Vermont, we believe that you have made a commitment to rigor and excellence in your educational endeavors. As you will shortly begin to discover, a critical component of that education will be refining several fundamental skills that are the hallmarks of a caring, compassionate professional nurse and that are absolutely essential when caring for another human being, namely listening to others, being sensitive to their needs, and reflecting on what it means to be a professional. We look forward to helping you nurture these attributes!

Once again, welcome to UVM and the Department of Nursing.

Most Sincerely Yours,

Stuart Whitney, Ed.D., RN, CNL
Clinical Professor
Vice Chair: Undergraduate Nursing Program

Location

The Department of Nursing is located in the Rowell Building, which is connected to the Given Building. Administrative offices and faculty offices are all located on the second floor. The Rowell and Given Buildings are open from 7:00 a.m. to 7:00 p.m. Monday through Friday.

Administrative and Faculty Offices

- Administrative offices for the undergraduate nursing program are located in Rowell 216.
- The office of the Department of Nursing Chair is in Rowell 216.
- Faculty offices are located on the second floor of Rowell. Specific office numbers of individual faculty can be found in the UVM Directory, via the UVM Home Page, or through the staff in Room 216.
- The office of the Dean, College of Nursing and Health Sciences, is located in Rowell 105.
- The Student Service Office, College of Nursing and Health Sciences, is located on the ground level of Rowell, room 002.

The Simulation Center

The main Simulation Center is on the second floor of the Rowell Building. The Assessment Center is on the second floor in the Given Building. This dedicated space creates an environment for students to learn and practice selected psychomotor, cognitive and affective nursing skills in a realistic environment.

Communications

1. **Contacting Faculty** - Faculty may be contacted through their individual extensions listed in the UVM Telephone Directory. Faculty may also be contacted by e-mail. A listing of faculty e-mail addresses can be found on-line in the UVM web site under UVM Directory: <https://www.uvm.edu/directory/>
2. **Communication** - Students are expected to check their UVM email accounts on a regular basis for important information.
3. **Change of address** - Student's current local address and phone number should be on file through the Registrar's Office. To update your directory information: https://www.uvm.edu/directory/?Page=change_login.php. It is essential that there be a way to contact students in case of emergency.

History of the Department of Nursing

Nursing as an academic program was established at The University of Vermont in 1943 offering a baccalaureate degree. Originally, the program held departmental status within the College of Arts and Sciences and later the College of Education and Nursing. In 1968, the Department of Nursing became the Department of Nursing within the newly formed Division of Health Sciences.

At its inception, the baccalaureate nursing program was five calendar years in length. Over time, it evolved into the current four-year academic program format. In so doing, the curriculum of the baccalaureate program has emerged as a model for the campus for its commitment to liberal and professional education.

The demand for change in academic programs throughout the 1960s, precipitated by a knowledge explosion in the health sciences, created new opportunities for the School of Nursing. In 1966, funded by the American Nurses' Foundation, a program in continuing education for nurses was started. As an outcome, registered nurses joined the baccalaureate nursing program starting in 1968. Also notable, 1968 marked the initiation of the second academic program in nursing, the two- year associate degree program.

In 1974, a federally funded certificate nurse practitioner program was begun. This program continued until 1981. In 1988, the Master of Science program was approved by the UVM Board of Trustees and the first graduate students were admitted to the adult health nursing track in the fall of that year. The community health nursing track was added in 1989. In 1996, the primary care track was established with federal funding to prepare nurse practitioners.

In May 1996, the faculty of the School of Nursing closed the associate degree nursing program and focused their energy on the baccalaureate and graduate programs. In addition to expanding the graduate program, an RN- BS-MS accelerated track was added to the baccalaureate program in the fall of 1997.

In 2000, the Dean of the School of Nursing also assumed responsibilities as the Dean of the School of Allied Health Sciences, and in 2002, the two Schools joined to become the College of Nursing and Health Sciences. The School of Nursing became the Department of Nursing in the newly formed College of Nursing and Health Sciences.

The Department of Nursing offers a Bachelor of Science in Nursing degree and a Master of Science in Nursing degree as Clinical Nurse Leader, and a Doctor of Nursing Practice in Primary Care Nurse Practitioner or Executive Nurse Leader. The program is approved by the Vermont State Board of Nursing and accredited by the Commission on Collegiate Nursing Education.

Department of Nursing Mission Statement

The mission of the Department of Nursing reflects the mission of the University. The University mission, "...is to create and share knowledge. UVM prepares its students to live productive, responsible, and creative lives through a high quality liberal education. As a research university, UVM endorses the intrinsic value of the creation of new knowledge and promotes the application of relevant knowledge to benefit the State of Vermont and society as a whole. As a research university, UVM is distinguished by the comprehensiveness of its academic mission, its range of graduate and undergraduate programs and its commitment to research-based lifelong learning. As a community of scholars, students, both undergraduate and graduate, are involved in the generation of knowledge. As a member of its local and global community, the University has an obligation to share its knowledge, to assist with relevant applications of that knowledge, and to understand and respond to a changing and diverse world" (UVM Undergraduate Catalogue).

The Department of Nursing is an integral part of the University of Vermont and College of Nursing & Health Sciences endorses the principles of the University and College in teaching, research, and service.

The Department of Nursing's mission is to:

1. Provide high-quality education to undergraduate and graduate students who will demonstrate competent, inclusive nursing practice and innovative leadership in health care.
2. Use our expertise, practice, research findings, and service, to improve the health of a diverse society.
3. Conduct research and participate in healthcare system changes with our academic and healthcare partners to improve the quality of health care in our state, nation, and world.

The Department of Nursing carries out its mission of preparing qualified individuals for professional and advanced nursing practice by offering the following educational programs:

- Bachelor of Science in Nursing
- RN-BS Program (Registered Nurses)
- Master of Science in Nursing (Clinical Nurse Leader)
- Direct Entry Program in Nursing (DEPN) (Pre-Licensure)
- Doctor of Nursing Practice (Primary Care Nurse Practitioner)
- Doctor of Nursing Practice (Executive Nurse Leader)
- Post Masters Doctor of Nursing Practice (Primary Care Nurse Practitioner, Executive Nurse Leader)

The Department carries out its mission of improving the quality of nursing education and service through the following activities:

- Research and scholarly activities which contribute to the development of clinical practice, nursing education, and further the development of the science of nursing.
- Outreach to the community.
- Participation in local, state, regional, and national nursing organizations.
- Provision of consultation to agencies providing nursing care and nursing education.

The Department carries out its mission of improving the quality of health and health care through the following activities:

- Preparing qualified individuals for nursing practice at entry and graduate levels.
- Undertaking research and scholarly activities which contribute to the improvement of health care.
- Participation in the activities of health related organizations.
- Educating consumers of health care.

Updated: May 2017

Philosophy of the Department of Nursing

As Nursing faculty, we believe,

Learning and discovery are life-long processes. Nursing curricula inclusive of the arts and sciences facilitates students' development of clinical reasoning and critical thinking skills. Nursing education advances, inclusivity, interprofessional collaboration, health equity, and the use of sustainable practices.

Health across the lifespan is a dynamic process requiring holistic approaches which are safe and effective. Health values are influenced by personal, spiritual, cultural, and societal beliefs and practices.

Nursing practice responds to the health needs and values of a global society by respecting age, disability, gender identity, genetic information, national origin, race, religion, sexual orientation or socioeconomic factors, and transcends national boundaries.

Evidence-based practice derived from research is essential to optimal health promotion and foundational to nursing practice.

Interprofessional and consumer communication, enhanced by technology is vital to quality and optimal consumer-based healthcare outcomes.

Participation in healthcare policy and legislative processes are requisite to influence and protect the public's health and the nursing profession.

Approved by the Department of Nursing Faculty 5/16/17

Baccalaureate Program in Nursing

Introduction

The overall organizing framework of the baccalaureate program is derived from a holistic- humanistic arrangement of the major concepts contained within the Department's philosophy. An understanding of the human experience of health forms a focal point of the framework.

Program Outcomes

At the completion of the program, the graduates of the Baccalaureate Program will:

1. Provide safe, inclusive, effective and culturally sensitive relationship-centered care across the life span to diverse populations.
2. Collaborate and communicate effectively with the interprofessional health care team and client.
3. Use information and technology to enhance health care outcomes.
4. Integrate reliable evidence from the multiple ways of knowing to inform practice and make clinical judgments.
5. Promote safety and minimize risk of harm to clients and providers through both individual performance and evaluate system effectiveness.
6. Demonstrate accountability for practicing nursing using established moral, legal, ethical regulatory and humanistic principles.
7. Promote health behavior of clients and facilitate the establishment and achievement of shared health goals.
8. Advocate for a healthy, sustainable and equitable environment through individual and collective action.
9. Respect the dignity and privacy of clients while maintaining confidentiality in the delivery of care.

See link: [PRNU Curriculum](#)

Approved by the Baccalaureate Education Committee: 2/12/2018

Approved by DON: 2/23/2018

Academic Advisement and Academic Resources

Each student is assigned a Nursing faculty advisor at the end of the first year, to assist in program planning. Advisement is the responsibility of both the student and faculty. Students are encouraged to initiate a meeting with their advisor each semester to discuss progression and graduation requirements, changes in courses and for guidance in elective course selection as needed. Advisors are available either during scheduled office hours or by appointment throughout the semester to discuss issues or questions students may have.

An advisor may be changed when:

- (a) the advisor or advisee believes that another faculty member could serve the student better, or
- (b) the faculty member's workload warrants readjustment, or
- (c) the advisor is on leave or terminates employment.

Requests for change of advisor should be made to Christina Adamczak in Rowell 216 (Christina.Adamczak@med.uvm.edu).

The Learning Cooperative represents an additional academic resource. The Learning Co-op supplements the academic environment by providing developmental instruction in writing, reading, and study skills. The Co-op also maintains a campus-wide tutoring program. An appointment can be made by calling 802-656-4075.

Additional resources are described in the current UVM Catalogue: <http://www.uvm.edu/academics/>

Overview of the Curriculum for the Baccalaureate Program

The Bachelor of Science degree with a major in nursing is awarded upon completion of a minimum of 123 credit hours in full- or part-time study. The major components of the curriculum are required non-nursing courses, elective courses, and major nursing courses.

The specific required courses are illustrated on the curriculum plan on the following page. A program checklist is also provided to help with course planning each semester. Students must successfully achieve:

- 66 credit hours of major nursing courses
- 45 credit hours of required non-nursing courses
- 12 credit hours of elective courses

Many of the major nursing courses have both a theoretical and a laboratory or practicum component. Credit allocation for class, laboratory, and practicum components of courses is described below:

One credit is equivalent to 1 class hour/week.

One credit is equivalent to 2 laboratory hours/week.

One credit is equivalent to 3 practicum hours/week.

NURSING/PRNU Curriculum

Academic Year: 2020-2021

FIRST YEAR

<u>Fall Semester</u>	<u>Credits</u>	<u>Spring Semester</u>	<u>Credits</u>
CHEM 023: Outline of General Chemistry	4	CHEM 26: Outline of Organic & Biochemistry	4
ENGS 001: English	3	SOC 001-099*	3
PSYS 001: General Psychology	3	PSYS 170: Abnormal Psychology	3
HDFS 005: Human Development	3	NFS 43: Fundamentals of Nutrition	3

Updated 2/15/2019

Independent Study

Students may develop an independent study in nursing to fulfill one or more elective course credits. Students who wish to undertake independent study in the baccalaureate nursing program (see [UVM Catalogue](#)) is reminded that arrangements to do so must be made and approved **prior** to registration day of the semester in which independent study is carried out. The independent study must be approved by Baccalaureate Education Committee. Most faculty are not on contract during summer months and thus they may not be available for supervision of independent studies during the summer. Prior to planning an independent study, you should read carefully the document entitled **PRNU 197 Independent Study** that is available in Rowell 216.

APA Format Guidelines

The American Psychological Association (APA) guidelines are used for the preparation of all papers required for PRNU and GRNU courses unless otherwise specified by the professor. Students should purchase the following by the beginning of the spring semester of the second year:

American Psychological Association (2019) Publication:
Manual of the American Psychological Association (6thEd)

Practicum Experiences

Many of the nursing courses have both a theoretical and practicum component. Practicum experiences are designed to provide an opportunity to apply knowledge and skills learned in the classroom. Many of these experiences will take place away from the UVM campus and thus access to a car is necessary. When feasible, students will be encouraged to car pool and travel together. Please note that some practicum experiences may occur during the evening hours and on weekends.

Attendance at all clinical experiences is a professional expectation. Absences from clinical activities may occur due to personal illnesses, events or family circumstances. On occasion, absences can be anticipated such as religious holidays and participation in UVM-sanctioned athletic events. Any request for an absence for a special circumstance must be discussed and approved prior to the scheduled clinical day with the individual clinical faculty.

Missed clinical time can result in clinical warning, failure, or inability to progress in the program. Make up hours for clinical absence is typically not an option but again may depend on individual student circumstances and faculty availability. Students are responsible for notifying both the clinical faculty and clinical site of any absences or delayed arrival to an assigned clinical activity.

Student Mandatories

As a CNHS undergraduate student, you are required to complete the CNHS Mandatories, prior to first clinical course. Since each clinical site has different requirements, it is essential to be compliant with this process. It is your responsibility to ensure that you are up to date with all pre-clinical requirements (example: making sure that your CPR certification is current). Aside from being required before clinical experiences, the CNHS Mandatories keep you healthy and safe for your future profession.

Complete details on CNHS Mandatories are online at:

http://www.uvm.edu/~cnhs/?Page=student_services/ugmandatories.html

The immunization and serology work takes time. You may need a booster and you may need to re-titer. Allow yourself ample time to complete this process and schedule your health care provider appointments by planning ahead.

Note: Students will be disenrolled from all PRNU courses if these requirements have not been met.

Math Competency Exam Policy

Math competency exams will be given in the following nursing courses: PRNU 114, 128, 132, 134 and 234.

The math competency exams in PRNU 114 and 128 must be completed by the end of the semester with a grade of 90% or higher. If a student scores less than 90%, the student should meet with the professor to remediate prior to retaking the exam. The student will complete a similar second math competency exam within one week and must score at least 90%. Any student who fails to earn a score of 90% or higher on the second math competency exam will receive a Grade of "F" for the course.

The math competency exam in PRNU 132, 134 and 234 will be given during the first week of the semester. If the student scores less than 90%, the student should meet with the professor to remediate prior to retaking the exam. The student must successfully complete a similar second math competency exam with a grade of 90% or higher within one week. The student may not administer any medications in the clinical setting until completing the medication competency exam with a score of 90% or higher. Grades for both math competency exams will be averaged together when calculating the final grade for the math competency exam.

If a student fails to achieve a score of 90% or higher on the second math competency exam, the student will not be able to continue in any clinical nursing course during that semester (i. e., will need to withdraw from all clinical nursing courses). Progression in the program will be impacted.

Approved Department of Nursing: 5/11/2012

Confidentiality

All clients have a right to confidentiality regarding their health status and their interactions within the health care system. Throughout many of your practicum experiences, clients will be sharing highly personal information with you. As well, you will have access to health information through health records. It is your obligation to keep this information private. You have a responsibility to protect the information you obtain and use it within the guidelines you will be learning in your courses.

This same obligation extends beyond the clinical area to all classes. When presenting cases or using an example from your practicum experience to express a concept, you are to maintain the confidentiality of your clients and not disclose any identifying information.

Health Insurance

The University does not pay medical costs resulting from injury during practicum rotations or other curricular activity unless this injury is due to negligence of the University.

All nursing students must carry their own health insurance.

UVM Department of Nursing Dress Code for Clinical Experiences

Purpose: The following dress code is required for all students to meet standards for professional appearance, reduction of infection, and promotion of safety. Variations in the following guidelines are at the discretion of the faculty. Faculty may stipulate more specific expectations based on the setting. Failure to comply with the dress code may result in an unexcused absence from clinical experiences.

Purpose: The following dress code is required for all students to meet standards for professional appearance, reduction of infection, and promotion of safety. Variations in the following guidelines are at the discretion of the faculty. Faculty may stipulate more specific expectations based on the setting. Failure to comply with the dress code may result in an unexcused absence from clinical experiences.

1. All clinical and simulation experiences require the following dress code expectations:
 - a. Students are expected to be neat, clean with well-groomed personal hygiene and appearance.
 - b. Clothing is clean, pressed, fits properly, in good repair (no frays, rips, or holes).
 - c. UVM name tag (or agency ID) worn on upper chest.
 - d. Neutral colored hosiery/socks.
 - e. Tattoos are covered.
 - f. Jewelry is simple and kept to a minimum for your safety and patient safety. No chains, necklaces, wrist bands, bracelets. Tongue, nose or visible body piercings, are not permitted except for ear lobes with small posts.
 - g. Hair is neat and clean. Long hair is pulled back and secured when providing direct patient care. Hair will be a color that occurs naturally. For example, hair colors such as pink, purple, blue and green are not permitted.
 - h. Facial hair is clean, well-groomed. Mustaches and beards are neatly trimmed or clean shaven.
 - i. Fingernails are clean and neatly manicured. Use of artificial nails, nail decorations or nail polish are not allowed due to infection risk.

- j. Colognes, perfumes or scented hand lotions are not used due to client allergies, sensitivities and possible adverse reactions.
 - k. Clothing does not reveal cleavage, midriff, shoulders, or undergarments.
 - l. Head coverings may be worn for religious or medical reasons.
2. Pre-Clinical Preparation: When the student arrives at a clinical agency to retrieve their assignment, introduce themselves to a client, or begin to collect pertinent data, the student will wear:
- a. Business casual attire
 - i. Business casual includes below the knee or longer dresses and skirts, slacks, blouses and sweaters. Shoes are soft soled, low heeled with closed heel and toe worn with hosiery/socks.
 - ii. Business casual does NOT include: denim or jean-like pants, tank tops, tube tops, sleeveless shirts, shorts, jeans, miniskirts, sweat pants, hooded garments, t-shirts with logos, tight fitting clothing, or low necklines.
 - b. A clean white lab coat with the UVM DON logo on the left sleeve
 - c. UVM name tag (or agency ID badge) clearly displayed
3. Clinical experiences requiring scrubs: When providing direct patient care, the student will wear:
- a. Wine colored or green scrubs (according to program) with UVM DON patch sewn on left sleeve
 - b. A plain (no logos or designs) long-sleeved T shirt may be worn underneath the scrub top.
 - c. White lab coat, “scrub type” jacket or neutral colored sweater may be worn over the scrub top (for your safety no hoodies).
 - d. Closed toe and closed heel, **solid** colored white or black shoes (no colored stripes, eyelets, or logos).
4. Clinical experiences not requiring scrubs (such as Psychiatric, Public Health and Community Settings):
- a. Business casual attire as defined in item 2a
 - b. Coordinating hosiery
 - c. Low heeled, soft sole, closed toe and closed heel shoes or sneakers.

Approved DON 12/2017

Department of Nursing Academic Standing and Progression Policy

Approved February 7, 2019: Effective August 2019 with entering Class of 2023

Nursing Progression Policy

1. **Cumulative GPA of 2.8 or better is required to remain in the nursing major.** Students who do not meet the requirement are placed on academic trial for one semester. Failure to raise the cumulative GPA to 2.8 upon completion of the “on trial” semester is grounds for discontinuation from the major.
2. **A grade of C or better is required in all nursing prerequisite courses.** If the standard is not met, the course must be repeated. Progression to the next semester may be affected. Receiving a grade of C- or below or W in the same prerequisite course twice or in two different courses is grounds for discontinuation from the major.
3. **A grade of C+ or better is required in all PRNU nursing courses and NURS 220.** If the standard is not met, the course must be repeated. Progression to the next semester will be affected. Receiving a grade of C or below or W in the same nursing course twice or in two different courses is grounds for discontinuation from the major.

College of Nursing and Health Sciences Academic Policies

Student Learning Accommodations:

In keeping with University policy, any student with a documented disability interested in utilizing accommodations should contact SAS, the office of Disability Services on campus. SAS works with students and faculty in an interactive process to explore reasonable and appropriate accommodations, which are communicated to faculty in an accommodation letter. All students are strongly encouraged to meet with their faculty to discuss the accommodations they plan to use in each course. A student's accommodation letter lists those accommodations that will not be implemented until the student meets with their faculty to create a plan.

Contact SAS:

A170 Living/Learning Center;

802-656-7753;

access@uvm.edu

www.uvm.edu/access

Religious Holidays:

Students have the right to practice the religion of their choice. If you need to miss class to observe a religious holiday, please submit the dates of your absence to me in writing by the end of the second full week of classes. You will be permitted to make up work within a mutually agreed-upon time. <https://www.uvm.edu/registrar/religious-holidays>

Academic Integrity:

The policy addresses plagiarism, fabrication, collusion, and cheating.

<https://www.uvm.edu/policies/student/acadintegrity.pdf>

Grade Appeals:

If you would like to contest a grade, please follow the procedures outlined in this policy:

<https://www.uvm.edu/policies/student/gradeappeals.pdf>

Grading:

For information on grading and GPA calculation, go to <https://www.uvm.edu/registrar/grades>

Code of Student Rights and Responsibilities:

<http://catalogue.uvm.edu/undergraduate/academicinfo/rightsandresponsibilities/>

FERPA Rights Disclosure:

The purpose of this policy is to communicate the rights of students regarding access to, and privacy of their student educational records as provided for in the Family Educational Rights and Privacy Act (FERPA) of 1974.

<http://catalogue.uvm.edu/undergraduate/academicinfo/ferparightsdisclosure/>

Promoting Health & Safety:

The University of Vermont's number one priority is to support a healthy and safe community:

Center for Health and Wellbeing:

C.A.R.E.

If you are concerned about a UVM community member or are concerned about a specific event, we encourage you to contact the Dean of Students Office (802-656-3380). If you would like to remain anonymous, you can report your concerns online by visiting the Dean of Students website at <https://www.uvm.edu/studentaffairs>

Final Exam Policy:

The University final exam policy outlines expectations during final exams and explains timing and process of examination period. <https://www.uvm.edu/registrar/final-exams>

Alcohol and Cannabis Statement:

The Division of Student Affairs has offered the following statement on alcohol and cannabis use that faculty may choose to include, or modify for inclusion, in their syllabus or Blackboard site:

Statement on Alcohol and Cannabis in the Academic Environment

As a faculty member, we want you to get the most you can out of this course. You play a crucial role in your education and in your readiness to learn and fully engage with the course material. It is important to note that alcohol and cannabis have no place in an academic environment. They can seriously impair your ability to learn and retain information not only in the moment you may be using, but up to 48 hours or more afterwards. In addition, alcohol and cannabis can:

- **Cause issues with attention, memory and concentration**
- **Negatively impact the quality of how information is processed and ultimately stored**
- **Affect sleep patterns, which interferes with long-term memory formation**

Student Employment

The faculty of the Department of Nursing recognize that employment is a necessity for many students. Your class and practicum schedule, particularly during your junior and senior years, is very time consuming. Practicum experiences may occur during the day or evening hours and may be outside of Burlington city limits requiring travel time. When making employment commitments be mindful of the flexibility you will need to be available to meet the Department of Nursing classroom and practicum requirements. Please be aware that honoring an employment commitment is never a valid reason for absence from class or practicum. Furthermore, if you do not meet the required number of class and clinical hours, you may not be certified as having completed the program and, thus, may be ineligible for graduation.

Work Study Opportunities

The Department of Nursing has several work-study positions available including staff assistants, laboratory technician, and research assistants. These positions can only be filled by students who have been awarded Federal Work Study financial aid. Applications are available annually in Rowell 216.

Nursing Assistant

If you choose to work as a nursing assistant in Vermont it is important for you to be aware of the Vermont State Board of Nursing Rules and Regulations. These are available from the Vermont State Board of Nursing, 89 Main Street, 3rd Floor, Montpelier, VT 05620-3402, (802) 828-2396.

The Vermont Nurse Practice Act prohibits *unlicensed* persons from practicing as a professional nurse, practical nurse, or nursing assistant. It is therefore illegal for unlicensed student nurses to perform functions of the registered professional nurse or licensed practical nurse except when performing these functions under the direction and supervision of a faculty member or faculty member designee.

To be employed as a nursing assistant in Vermont, a student must obtain a license. A nursing assistant refers to an individual who performs nursing or nursing related functions under the supervision of a licensed nurse.¹ For information regarding licensure as a nursing assistant, contact the Vermont State Board of Nursing, at the address or telephone number above to request an application.

Participation in University, College of Nursing and Health Sciences, and Department of Nursing Governance and Nursing Organizations

There are multiple opportunities for student participation in the governance of the University, the College, and the Department of Nursing. Students may also join the Student Nurse Association and may qualify for Kappa Tau, the UVM Chapter of Sigma Theta Tau, and the international nursing honor society. Students are strongly encouraged to consider these opportunities and actively participate in this aspect of University life.

In the Department of Nursing, the following committees and organizations seek undergraduate student participation:

Committee/Organization	Purpose	Membership	Meeting
Baccalaureate Education Committee	Makes recommendations to the Faculty Organization to refine, implement, and evaluate the BS curriculum.	One or two student representatives, five elected faculty members, and invited persons with liaison responsibilities.	Generally once a month.
Kappa Tau Chapter of Sigma Theta Tau International Nursing Honor Society	The purposes of Kappa Tau are to recognize superior achievement and development of leadership qualities, foster high professional standards, encourage creative work, and strengthen commitment to the ideals and purposes of the profession.	Senior baccalaureate nursing students qualify for membership if their grade point average is greater than 3.0 <u>and</u> they are in the top 35% of their class.	Kappa Tau activities occur throughout the semester and are open to all.
The University of Vermont Student Nurse Association (UVSNA)	Provide an opportunity to focus on current educational and political issues. Activities include community service, social events, fund raising and scheduled meetings to share information on student life, health care issues, and various topics of interest.	Faculty advisor and all interested students.	Meetings scheduled on a regular basis during the academic year.

Student Nurses Association

Welcome!

As a nursing student here at The University of Vermont, you are automatically enrolled in the Student Nurses Association (SNA) unless you have opted out. This exciting national nursing organization provides students with many wonderful opportunities, and I encourage all of you to take some time over the course of this school year to find out more about us.

Here at UVM, the SNA provides many opportunities to network with fellow nursing students and faculty as well as participate in community service activities. In addition, many nursing students attend the national SNA Convention. In the past, we have traveled to Salt Lake City, Utah, Baltimore, Maryland, Anaheim, California, Texas, and Tennessee and were able to actively participate in national issues affecting nursing practice. You each have a voice as student nurses and this is one way you can make a difference. Come and join us on an adventure to future conventions.

There are also opportunities to develop leadership skills by becoming an officer in our local chapter of the SNA. Each spring, new officers are elected among interested nursing students to fill positions as President, Vice-President, Secretary/Treasurer, Fundraising Chair, and Convention Planning Chair. To become an officer, you simply need some motivation, enthusiasm, and another student to nominate you. All of you qualify!

We have monthly meetings and work on various projects including fundraising, job fairs, community service activities, and issues affecting nursing students' experiences here at UVM. Occasionally we invite guest speakers such as nurse recruiters from area hospitals, the military services or the Peace Corps, and we work closely with both the Department of Nursing faculty and the College of Nursing and Health Sciences. The SNA is also a recognized University of Vermont Student Government Organization.

You will be added to the SNA email listserv and notified of meetings and events. If you have any questions, please feel free to contact me at 656-2618 or via email at Teresa.Cahill-Griffin@med.uvm.edu; I look forward to working with you!

Warmest Regards,

Teresa Cahill-Griffin, MSN, RN
Faculty Advisor
Student Nurses Association

National Student Nurses Association Code of Academic and Clinical Conduct

Preamble

Students of nursing have a responsibility to society to learn the academic theory and clinical skills needed to provide nursing care. The clinical setting presents unique challenges and responsibilities in actively practicing that care while caring for human beings in a variety of health care environments. The Code of Academic and Clinical Conduct is based on an understanding that to practice nursing as a student is an agreement to uphold the trust with which society has placed in us. The statements of the Code provide guidance for the nursing student in the personal development of an ethical foundation and need not be limited strictly to the academic or clinical environment but can assist in the holistic development of the person.

A CODE FOR NURSING STUDENTS

As students are involved in the clinical academic environments we believe that ethical principles are a necessary guide to professional development. Therefore within these environments we:

1. Advocate for the rights of all clients.
2. Maintain client confidentiality.
3. Take appropriate action to ensure the safety of clients and others.
4. Provide care for the client in a timely, compassionate and professional manner.
5. Communicate client care in a truthful, timely and accurate manner.
6. Actively promote the highest level of moral and ethical principles and accept responsibility for our actions.
7. Promote excellence in nursing by encouraging lifelong learning and personal development.
8. Treat others with respect and promote an environment that respects human rights, values and choice of cultural and spiritual beliefs.
9. Cooperate in every reasonable manner with the academic faculty and clinical staff to ensure the highest quality of client care.
10. Use every opportunity to improve faculty and clinical staff understanding of the learning needs of nursing students.
11. Encourage faculty, clinical staff, and peers to mentor nursing students.
12. Refrain from performing any technique or procedure for which the student has not been adequately trained.
13. Refrain from any action or omission of care in the academic or clinical setting that creates unnecessary risk of injury to the client, self or others.
14. Assist the staff nurse or preceptor in ensuring that there is full disclosure and that proper authorizations are obtained from clients regarding any form of treatment or research.
15. Abstain from the use of alcoholic beverages or any substances in the academic and clinical setting that impair judgment.
16. Strive to achieve and maintain an optimal level of personal health.
17. Support access to treatment and rehabilitation for students who are experiencing impairments related to substance abuse and mental or physical health issues.
18. Uphold school policies and regulations related to academic and clinical performance, reserving the right to challenge and critique rules and regulations as per school grievance policy.

Scholarly and Professional Recognition

Dean's List

At the beginning of each semester full-time students with a grade-point average of 3.0 or above and in the top 20 percent of their class will be recognized on the Dean's List.

White Coat Ceremony

Each fall at the start of Parent's Weekend, all of the first year nursing students are given a white coat officially welcoming them into the nursing program.

Parent's Weekend

This usually falls on the first weekend of October; coinciding with Homecoming as well.

Honor's Tea

Honor's Tea is held each spring to recognize an outstanding sophomore and junior nursing student.

Honors Day

Honors Day is held each spring to recognize students for excellence in scholarship, leadership, clinical excellence and community service. Information on specific criteria and the nomination process for the following awards can be obtained from Office of Student Services, College of Nursing and Health Sciences, Rowell 106.

Pinning Ceremony

Part of the Commencement, students will be "pinned" with their BSN pin by someone who has influenced and/or supported them in their nursing student process.

Graduation

Graduation is a special time at UVM. A series of social activities for graduates, planned by the senior class, will occur during the week preceding graduation day. Students receiving graduation honors of cum laude, magna cum laude, or summa cum laude will receive honor medallions. One or two days before commencement, there is a hooding ceremony for students who have earned a graduate degree, as well as a commissioning ceremony for students who have earned a commission in the Army or Air Force through the ROTC program.

On graduation day, all students, in cap and gown, and their families/friends are invited to attend a University-wide ceremony at which degrees are conferred by the president of the University. Shortly after this ceremony concludes, the College of Nursing and Health Sciences (CNHS) holds a reception for the graduates, their families, and friends where student can receive their diploma.

Registered Nurse Licensing Examination

To practice as a nurse anywhere in the United States, registration in the state where you are employed is required by law. Each state establishes its own laws and regulations. Graduates from the baccalaureate degree program are eligible to apply for licensure by examination in Vermont or any other state. Approval of the application is the prerogative of the state board of nursing. Each student should refer to the state in which they plan to take the NCLEX-RN examination for specific requirements. Each state has their own application fee; Pearson Vue is a separate fee.

<http://www.pearsonvue.com/nclex/>

Upon successful completion of the program, the student is eligible to take the National Council Licensure Examination for Registered Nursing (NCLEX-RN). The licensing examination is administered by Pearson Vue and is a Computerized-Adaptive Test (CAT). State boards of nursing have the sole authority to grant graduates the opportunity to take the NCLEX-RN examination.
