## Core Courses (14 credits)

The following courses are required. Write the course number, name, and semester taken.

1. Domain-Specific Courses (6 credits): __________________________________________

2. Human Physiology (4 credits):

3. Math or Statistics Course (3 credits):

4. Ethics Course (1 credit) or equivalent: _______________________________________

## Technical Electives (≥16 credits)

A minimum of 16 credits of approved course work in engineering, math, physics together with anatomy, physiology, biology, biochemistry, biophysics or other approved courses at or above the 200 level as necessary to round out the student’s pursuit of graduate level competence in both quantitative methods and biomedical systems. These courses will be decided by the student in consultation with the Studies Committee, and the Committee Chair will sign off when each course is successfully completed.

1. Course: __________________________________________

2. Course: __________________________________________

3. Course: __________________________________________

4. Course: __________________________________________

5. Course: __________________________________________

## Teaching requirement

Complete one of the following:

1. Present at three research seminars at UVM,
2. Give one oral presentation at a scientific conference, or
3. Serve as a GTA for one semester
