

This opportunity was sent by UVM Geography Alumna and former Administrative Coordinator Jenny Baldwin. For more information, reach out to Jenny at jbaldwin@mathematica-mpr.com

We're now accepting applications for Mathematica's summer fellowship and summer internship programs. The deadline for fellowship applications is February 28. Internship applications will be accepted until all roles are filled.

We're proud to offer two opportunities for scholars to spend between 10 and 12 weeks as part of the Mathematica family. The first is our summer fellows program, which invites doctoral candidates to pursue their independent research for 12 weeks at Mathematica while connecting with mentors among our staff. The second is our 10-week summer internship program, which welcomes college and graduate students to learn about a variety of departments within our company through mentorship and hands-on experience with real-world projects. Important goals of both programs are to provide opportunities for scholars from diverse backgrounds to gain valuable professional experience at Mathematica, while building a pipeline into our organization and the field. In addition, these two programs provide an opportunity for the Mathematica community to learn from future leaders in research and policy.

- In 2021, we welcomed three summer fellows and 19 summer interns (10 in Human Services, 6 in Health, 2 in Business Operations, one in HR). Three interns were hired into full-time positions at the end of the program. Other former interns have applied to full-time positions in 2022.
- Fellows and interns may have the opportunity this year to choose among on-site, remote, and hybrid work options. Summer interns will begin the program with fewer than 40 hours per week of work, then ramp up to full-time.

Summer Internships

- Here's where to apply for the summer internship program: <https://www.mathematica.org/career-opportunities/summer-internships>. Accepted candidates will be notified on or before April 1, 2022.
- The 10-week summer internship program begins on June 6, 2022 and end on August 12, 2022.
- Our summer internship program enjoys partnerships with the [Health Career Connection](#) and the [Johns Hopkins University DEI Collective](#)

Summer Fellowships

- Here's where to apply for a Mathematica summer fellowship: <https://www.mathematica.org/career-opportunities/summer-fellowships>. Accepted candidates will be notified on or before April 1, 2022.
- The 12-week Summer Fellowship program begins on June 6, 2022 and ends on August 26 2022. (Dates are flexible.)
- Summer Fellows receive a \$10,000 stipend plus \$500 for project-related expenses. Summer interns earn between \$15 and \$22 per hour in compensation, depending on skillset and experience.

- Check out some of the [topics](#) covered by prior visiting summer fellows.
- Listen to a recent episode of our On the Evidence podcast, [featuring summer fellowship program alums](#).

For more information about the internship program, please contact Preeti Dixit or Meryl Rudisuhli. For more information about the Summer Fellows program, please contact Korinne Petersik.
