

Whallonsburg Grange Hall Fall Lyceum Series

Hidden in Plain Sight

This season's Grange Lyceum presents a series of lectures that look at well-known things from unusual angles and examines objects and ideas that have been hidden from plain view.

September 24

The Hidden History of World War II, 1931-1953

UVM historian and Grange board member Andy Buchanan discusses his recently-published book, *World War II in Global Perspective*.

October 1

Behind the Wall: Uncovering the Lone Rock Point Mural

Uncovering the Lone Rock Point Mural. Local art conservator Emily Philips talks about recovering and restoring a 1930s WPA mural in Vermont.

October 8

Under Our Feet: The Secret World of Microbes

Professor Scott Chimileski from Paul Smith's College examines the world hidden in the dirt we walk on.

October 15

Beneath the Surface: Salmon in the Boquet and Lake Champlain

Andrew Milliken of the Lake Champlain Fish and Wildlife Conservation Office will discuss the restoration of landlocked Atlantic salmon in Lake Champlain and the Boquet following the removal of the Willsboro dam.

October 22

Finding Grace: Science and Faith in a Time of Climate Change

Local author Katharine Preston talks about her new book *Field with a View*.

All programs are at the Grange on Tuesdays at 7:30 pm

Suggested donation \$5 per lecture/students free
