EDUCATION

Massachusetts Institute of Technology

Ph. D. – Physics, June 1989

Thesis advisers: Professors D. Adler and K. Johnson

B. S. & M. S. – Electrical Engineering and B. S. – Physics, June 1982

Thesis adviser: Professor H. Haus

PROFESSIONAL EXPERIENCE

University of Vermont, Department of Physics & Materials Science Program
Chair (2008–2016), Professor (2003–present), Associate Professor (1996–2003), Assistant Professor (1992–1996)

University of California, San Diego, Dept. of Mechanics and Engineering Sciences
Lecturer (1992).

University of California, Santa Barbara, Department of Physics
Postdoctoral Fellow (1989–1992) with Professor Walter Kohn.

Massachusetts Institute of Technology, Department of Physics
Research Assistant (1984–89).

Steinbrecher Corporation, Millimeter Wave Group, Woburn, MA
Senior Engineer (1982–84).

TEACHING EXPERIENCE

University of Vermont, Department of Physics

Undergraduate courses: Mechanics (Physics 31); Electricity & Magnetism (Physics 42); Relativity (Physics 095); Waves and Quanta (Physics 128); Electromagnetism (Physics 213 & 214); Solid State Physics (Physics 242); Statistical and Thermal Physics (Physics 265); Quantum Mechanics I (Physics 273); Applications of Quantum Mechanics (Physics 274)

Graduate courses: Mathematical Physics (Physics 301); Advanced Dynamics (Physics 311); Electromagnetic Theory (Physics 313); Solid State Physics (Physics 341); Quantum Mechanics II (Physics 362); Relativistic Quantum Mechanics (Physics 323B).

University of California, San Diego, Materials Science Program
Lecturer (1992). Graduate course: Solid state chemistry (MS 227).

University of California, Santa Barbara, Department of Physics
(1990). Graduate course: Condensed matter physics (Physics 223B).

Massachusetts Institute of Technology, Department of Physics
Recitation Instructor (1988–89). Undergraduate courses: Mechanics (8.01); Electricity and Magnetism (8.02).

HONORS & AWARDS

Visiting JILA Fellow, Boulder, Colorado (2019).

Vermont Academy of Science and Engineering (2018).

University Scholar, University of Vermont (2014).

Faculty Research Fellow, Air Force Office of Sponsored Research (1995).

Senior Member, Institute of Electrical and Electronics Engineers (1994).

Who's Who in America

American Men and Women of Science

Sigma Xi, scientific honor society

Eta Kappa Nu, electrical engineering honor society

Sigma Pi Sigma, physics honor society

VISITING APPOINTMENTS

Visiting Fellow, JILA, Boulder, Colorado (2019).

Visiting Scholar, University of Texas, Austin (2007).

Visiting Scientist, Harvard University (1999, 2006).

Visiting Associate Professor, University of California, Santa Barbara (1998, 1999, 2001).

Visiting Scientist, Kavli Institute for Theoretical Physics, University of California, Santa Barbara (1997).

Visiting Scientist, MIT, Department of Physics (1996–7).

Visiting Scholar, University of California, San Diego (1994)

Visiting Scientist, Los Alamos National Laboratory, Materials Science and Technology Division (1989).

GRANTS & PROPOSALS

Grant from NASA (2019-2021) (\$1,250,000) for the study of cold atom interactions with surfaces (PI: J. Marshall, co-I.: D.P. Clougherty; grant no. 80NSSC19M0143).

Grant from NASA (2017-2018) (\$37,500) for the study of anisotropic 2D superfluid phases in microgravity (P.I.: D.P. Clougherty).

Grant from NSF (2011-2015) (\$286,000) for an REU site on complex materials (P.I.: D.P. Clougherty; DMR-1062966).

Grant from ONR (2010-2013) (\$330,000) for the theoretical study of the mechanical and thermal properties of metallic glasses (P.I.: M. Eberhart, co-PI: D.P. Clougherty; N00014-10-1-0838).

Grant from NSF (2008-2012) (\$240,000) for the study of many-body effects in particle-surface scattering (P.I.: D.P. Clougherty; DMR-0814377).

Grant from DARPA (2006-2007) (\$167,000) for the study of theoretical models of metallic glasses (P.I.: M. Eberhart, co-I: D.P. Clougherty).

Grant from VT EPSCoR (2004) (\$20,000) was awarded for a high performance computational cluster (P.I.s: K. Chu, D.P. Clougherty, R. Headrick, J. Rankin)

Grant from DARPA (2001-2005) (\$450,000) for the study of structure-property relationships in intermetallic design (P.I.: M. Eberhart; co-I: D.P. Clougherty; #MDA9720110041).

Grant from Smithsonian Institution (1999-2000) (\$15,000) was awarded to investigate ferroelectricity in fulleride systems (P.I.: D.P. Clougherty).

Grant from University Committee on Research and Scholarship (\$4,500) (1998) was awarded to perform electronic structure calculations on strongly correlated clusters and molecules.

Grant from American Chemical Society–Petroleum Research Fund (1994-1997) (\$30,000) was awarded to investigate ultra-low energy physisorption of atoms onto surfaces at finite temperature (P.I.: D.P. Clougherty).

Grant from University Committee on Research and Scholarship (\$4,600) (1993) was awarded to study the scaling behavior of threshold sticking on low energy atoms on surfaces.

Grant from Akzo Chemical (\$40,000) (1991-1993) was awarded to investigate relations between electronic structure and mechanical properties of polymers.

Grant of eighty hours of computer time on the Cray YMP from the San Diego Supercomputer Center (1991) was awarded for the study of the electronic structure of magnetic multilayers.

Grant of forty hours of computer time on the Cray YMP from the San Diego Supercomputer Center (1990) was awarded to study the effects of electron correlation on ferromagnetism.

Grant from Los Alamos National Laboratory, Theoretical Division, Institutional Collaborative Program (\$8,400) (1989) was awarded for the investigation of the electronic structure of magnetic systems.

THESES SUPERVISED

Dr. Sanghita Sengupta, “Quantum Many-Body Effects in Two-Dimensional Materials,” Ph.D. thesis, Materials Science (2018).

Mr. Adam Doherty, “Quantum Sticking of Cold Atomic Hydrogen to Graphene,” B.S. Honors thesis, Physics (2013).

Dr. Yanting Zhang, “Orthogonality Catastrophe in Quantum Sticking,” Ph.D. thesis, Materials Science (2012).

Mr. Ian Goyette, “Breaking Quantum Mirrors with Thermal Fluctuations,” M.S. thesis, Physics (2011).

Dr. Charles Foell, “Theory of Vector Polarons,” M.S. thesis, Physics (2006).

Mr. John Gergely, “Phonons and Thermal Transport in Carbon Nanotubes,” B.A. Honors thesis, Physics (2002).

Mr. Xiang Zhu, “Thomas-Fermi Theory of Fullerenes,” M.S. thesis, Physics (1996).

Mr. John Gorman, “A Theoretical Study of the Vibrations of C_{60} ,” B.S. Honors thesis, Physics (1995).

OTHER PROFESSIONAL EXPERIENCE

Served as consultant to various institutions, including Akzo Research, Inc. (1991-3), Los Alamos National Laboratory, Materials Science and Technology division (1987-90), Massachusetts General Hospital, Department of Neurology (1985-89), Optex Corporation, Rockville MD (1995-6), and Quantum Energy Technologies, Inc., Cambridge, MA (1997–2001), TecPlot Inc. Bellevue, WA (2007–11) and Taylor Associates, Winooski, VT (2008–11). Scientific adviser to Bloomberg & O’Hara, Burlington VT (1996-8), Cheney, Brock & Saudek, P.C., Montpelier VT (2006), “Absolute Zero and the Conquest of Cold” American Physical Society national educational campaign (2007-8).

Serve as ad-hoc referee for many scientific publications, including Physical Review A & B, Physical Review Letters, Carbon, Physica C, the International Journal of Quantum Chemistry, the Journal of Materials Science, the Journal of Magnetism and Magnetic Materials, Journal of Physics and Chemistry of Solids, Nature, Physica Status Solidi B, Journal of Physical Chemistry A & B and the Journal of Chemical Physics.

Serve as ad-hoc referee for funding agencies, including NSF, Petroleum Research Fund (ACS), the Research Foundation, the Department of Energy and the U.S. Civilian Research and Development Foundation.

Serve as a reviewer for a variety of publishing companies, including Wiley, Addison-Wesley, W.H. Freeman and Canopus Publishing (UK).

SELECTED COMMITTEES

University/College

Selection Committee for Flint Professor of Natural Science, appointed by Dean of Engineering and Mathematical Sciences (2018)

Chair, faculty research misconduct committee, appointed by Vice President for Research (2017)
Search Committee for Director of Institutional Research, appointed by Provost (2016)
Chair, Selection Committee for Williams Professor of Mathematics, appointed by Dean of Engineering and Mathematical Sciences (2016)
Chair, Faculty Grievance Panel, appointed by Provost (2016)
Search Committee for Interim Dean, College of Arts & Sciences (2015)
Chair, Search Committee, Department of Geology (2009–10)
Member, Transdisciplinary Research Initiative Working Group on Environment, appointed by Provost (2009–2010)
Chair, Review Panel on research misconduct, appointed by Dean of the College of Arts & Science (2008–9)
Faculty Standards Committee, elected by faculty of the College of Arts & Science (2007–2008)
Chair, Grievance Panel for Reappointment, Promotion & Tenure, appointed by Provost (2005)
Chair, Committee for the Pomeroy Professor of Chemistry, appointed by Dean of College of Arts & Science (2003)
Materials Science Steering Committee, (1994, 1998–2003)
Chair, Graduate Studies, Department of Physics (1993–98)
Executive Committee, Department of Physics (1993–96)
College of Engineering Curriculum Committee (1993–95, 2007)
Chair, Colloquium Committee, Department of Physics (1992–97)

External

Vermont Academy of Science & Engineering, Science Education & Outreach (2018)
National Science Foundation, Panel (2007, 2012, 2013, 2019)
Science Advisory Committee, ECHO Science Center, Burlington VT (2010-)
Visiting Committee, Colorado School of Mines, Materials Science Program (2008-10)
Scientific advisory board, 5th International Conference on Materials Science & Engineering, Guelma, Algeria (2008)
Organizing Committee, International Workshop on Quantum Reflection, ITAMP, Harvard University (2007)
Scientific advisory board, 3rd International Conference on Density Functional Theory of Metals and Alloys, Oran, Algeria (2007)
Visiting Committee, Massachusetts Institute of Technology, Department of Physics (1988)

“The Kondo Effect in a Vibronic System,” Department of Physics, McGill University, Montreal, Canada, September 2002.

“Inversion Symmetry Breaking in Endohedral Fullerenes,” Department of Physics colloquium, University of Georgia, February 2001.

“Inversion Symmetry Breaking in Endohedral Fullerenes,” Condensed Matter Physics seminar, Dartmouth College, October 2000.

“Spontaneous Polarization in Endohedral Fullerenes,” Institute for Theoretical Atomic and Molecular Physics, Harvard University, October 1999.

“Vibronic Effects in Fullerenes,” Department of Physics Colloquium, University of Iowa, Iowa City, IA, May 1998.

“Vibronic Effects in Fullerenes,” Department of Physics Colloquium, Clarkson University, Potsdam, NY April 1998.

“Spontaneous Polarization in Endohedral Fullerenes,” Institute for Theoretical Physics, Santa Barbara, CA, May 1997.

“Fullerenes as Quantum Rubber Balls,” Department of Physics Colloquium, Rensselaer Polytechnic Institute, March 1996.

“Quantum Mirrors and the Threshold Laws of Atom-Surface Sticking,” Condensed Matter Physics Seminar, Harvard University, November 1995.

“C₆₀ as a Quantum Rubber Ball,” Dept. of Physics Colloquium, University College, Cork (Ireland), October 1995.

“Quantum Mirrors,” Dept. of Physics Colloquium, Tulane University, New Orleans, LA November 1994.

“Quantum Mirrors– Reflections of a Cold Atom,” Dept. of Physics Colloquium, University of Vermont, Burlington, VT October 1994.

“Sticky Issues in Quantum Sticking,” Dept. of Physics Colloquium, Northeastern University, Boston, MA March 1994.

“Sticky Issues in Quantum Sticking,” Dept. of Physics Seminar, Cornell University, Ithaca, NY November 1993.

“Universality in Physisorption Kinetics,” Dept. of Physics Seminar, Brown University, Providence, RI October 1993.

“Sticky Issues in Quantum Sticking,” Dept. of Physics Colloquium, Dartmouth College, Hanover, NH May 1993.

“Sticky Issues in Quantum Sticking,” Dept. of Physics Colloquium, Colorado School of Mines, Golden, CO February 1993.

“Topological Approach to Structure and Bonding,” Akzo Corporate Research, Dobbs Ferry, NY October 1992

“Sticky Issues in Quantum Sticking,” Dept. of Physics Colloquium, University of California– Davis, February 1992.

“Sticky Issues in Quantum Sticking,” Dept. of Physics Colloquium, University of California– San Diego, La Jolla, CA November 1991.

“Sticky Issues in Quantum Sticking,” Dept. of Physics Colloquium, University of Florida, Gainesville, FL October 1991.

“Dynamic Jahn–Teller Effect and High T_c Superconductivity,” Workshop on Mechanisms of High T_c Superconductivity, University of Miami, January 1991.

“Dynamic Jahn–Teller Theory of High T_c Superconductivity,” Department of Physics, California State University– Fullerton, March 1990.

“Recent Improvements within the Local Spin Density Approximation with Applications to Magnetic Systems,” Fall Symposium on Theory-Assisted Materials Development, Materials Processing Center, MIT, Cambridge, MA, November 1989.

“Vibronic Interactions and Superconductivity: Breakdown of the Born-Oppenheimer Approximation,” Center of Materials Science Seminar, Los Alamos National Laboratory, Los Alamos, NM, 1989.

“Molecular Orbital Approach to High Temperature Superconductivity,” Center of Materials Science Seminar, Los Alamos National Laboratory, Los Alamos, NM, 1988.
