

Ready Set Grow! Getting a vegetable garden started can be an overwhelming and intimidating process. In this module, Becky Maden will provide you with the skills and confidence you need to finally wrap your head around what you need to get your garden off the starting line. Becky makes vegetable gardening fun! Becky Maden is the Vegetable Nutrient Management Specialist with UVM Extension. She has been a commercial vegetable farmer in Vermont for 15 years and currently farms with her husband in Orwell, Vermont.
