Description of Work:

Safety Systems of Vermont will be testing all **pull stations and smoke/CO detectors in the buildings below.** This will require them to **enter ALL spaces** including offices, apartments & student rooms to do this test. There will also be a time that the horns/strobes will be activated so they can confirm proper operation. This means that the **horns/strobes could sound for up to an hour**. Where possible an announcement will be made over the fire alarm system notifying that this is a test and no need to evacuate. Once the testing is completed, another announcement will be made stating to evacuate if the fire alarm sounds. Again this can't be done in every building so it is important to look at the postings located at the main entrances. Thank you for your cooperation as we ensure the safety of all students, faculty and staff in our campus community.

Monday, May 22nd, 2023	7:00AM – 5:00PM	Address
	Jeanne Mance	394 Pearl Street
	Slade Hall	420 South Prospect
	Redstone Hall	376 So. Prospect
