

The **Global Family Enterprise Case Competition (FECC)** is the only intercollegiate competitive event focused on issues and dilemmas of family enterprises. Since 2013, over 485 sharpest students from 46 leading institutions in family business education have competed in FECC. 280 of UVMs finest students have worked on organizing this event. 423 judges from six continents have traveled to Burlington, Vermont to lend their expertise to this competition. During four tough rounds of the competition, student teams will present their case analysis and recommendations to a distinguished panel of judges who will determine which group best understood, analyzed and presented the case. Competitors apply the knowledge and expertise developed in the classroom towards solving complex paradoxes and dilemmas faced by enterprising families.
