NFS 283 – HACCP: Theory and Application

Professor: Dr. Todd Pritchard (aka “Dr. Todd”)

Office: 350 Marsh Life Sciences
Telephone: 656-0135
Email: Todd.Pritchard@uvm.edu

Office Hours: By Appointment. Send Email with request for meeting.

Course Description: This course is designed to address the concepts of HACCP and food safety systems. Students will develop mock prerequisite programs as well as a completed HACCP plan for a food product.

Entry into this course is by instructor permission only. All students wishing to apply should have taken both NFS 153 and NFS 203 prior to the semester they wish to take this course.

Expectations: All students are expected to come to class every day and to participate in the discussions. Students must submit work for review by other students in the class. Students are expected to review work of other students with a critical eye and to give constructive feedback on how to improve their overall HACCP plan.

Evaluation: Students will be evaluated on attendance, participation in class, submitted writings, written critiques of the work of others, as well as submitting a finalized HACCP plan with all prerequisite programs.
