RESTRICTIONS

Ineligible Major: Health and Society

For interdisciplinary exposure, no more than 12 credits of courses can come from a single course prefix.

OTHER INFORMATION

If you have a major in CAS, no more than 1 course may overlap between a student's major(s) or other minor(s). If your major is outside CAS, check with your college about double-dipping rules.

Students pursuing the Health Sciences major, the Global Health Concentration in the Anthropology major, and/or the Health and Healing track in the Environmental Studies major should be especially mindful of the double-dipping rules in the college of their major.

If pursuing an Anthropology major, ANTH courses used for the HSOC minor are included in the 45-credit major rule. If pursuing an Environmental Studies major, ENV5 courses used for the HSOC minor are included in the 45-credit major rule.

In taking intermediate and/or upper level courses, HSOC minors need to be mindful of prerequisites and plan ahead accordingly.

HSOC minors are encouraged to discuss their minor with both the HSOC minor advisor and their major advisor in order to tailor their plan of study to fit with their own particular strengths and interests.
