

# Grain Growers Webinar

On Tuesday, March 24, 2020, the University of Vermont Extension Northwest Crops and Soils Program will be offering a live **Grain Growers Webinar** from 12:00 PM to 2:00 PM.

Given the current COVID-19 situation, the University of Vermont has required that we cancel the 16th Annual Grain Growers Conference. We are excited to announce that some of our speakers are happy to offer their planned presentation via an online live webinar!

## 12:00 PM to 12:45 PM—*Flavor and Function* with Aaron MacLeod of Hartwick College, Center for Craft Food and Beverage

There is a resurgence of interest in rye that is being created by the craft distilling industry that is driving demand and future growth. Learn of the functional end use properties of rye for distilling, including analysis from **Aaron** on grain quality and distilling quality using data from UVM Extension's rye trials.

## 1:00 PM to 1:45 PM—*Cover-Crop Based No-Till and Interseeding Techniques* with Erin Silva of the University of Wisconsin, Plant Pathology

Intensifying cover crop incorporation into the organic grain rotation can reduce the need for tillage and cultivation for weed management while improving soil health. Join **Erin** as she shares techniques for successful cover crops and interseeding for corn and soybeans.
