

# Nutrient Management Planning (NMP)

## Course Information

The Nutrient Management Course was designed to help farmers balance nutrients on fields and meet state and federal reporting standards. Participants in this course will finish with a completed nutrient management plan (NMP) that meets the NRCS 590 Standard. Farmers have been able to cut costs by reducing unnecessary fertilizer applications and increase yields with more effective distribution of manure applications.

NMPs are created in this course using **goCrop™**, an online tool available on the web and as a mobile app. You can download it for a free 30-day trial here: [www.gocrop.com](http://www.gocrop.com). goCrop™ will help you store your data, manage your plan, and keep records. The mobile app helps you keep records in the field so that your plan stays up-to-date.

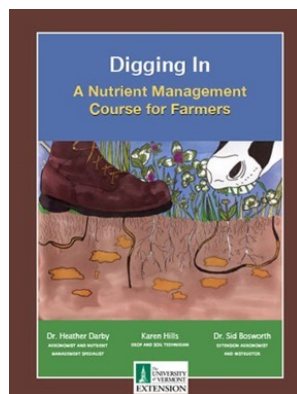

### Basic Course Requirements:

- Current soil analysis for all fields on the farm
- Current manure analysis
- Field maps including soil, nitrate leaching, topographic, etc.
- RUSLE2 Values

Please contact us for more specific requirements and information on how to obtain materials needed for the course.

Completing an NMP through the course will help you meet state and federal nutrient management reporting requirements.

For more information, please contact Susan Brouillette, [susan.brouillette@uvm.edu](mailto:susan.brouillette@uvm.edu) or Heather Darby, [heather.darby@uvm.edu](mailto:heather.darby@uvm.edu) or by phone 802.524.6501.

### 2022 Course Offering

**6 week course in several locations in Vermont beginning in January 13, 2022**

**The first four classes will be virtual and run for 4 consecutive Thursday's starting 1/13/22. The final 2 classes will be held in-person with dates and times TBD, but will likely be held in the following locations:**

- **St. Albans**
- **Craftsbury**
- **Middlebury**
- **Randolph**

*To request a disability related accommodation to participate in this program, please contact Susan Brouillette at (802) 524-6501 or 1-800-639-2130 (toll-free in Vt. only) at least 3 weeks prior to the course beginning date so we may assist you.*
