FREQUENTLY ASKED QUESTIONS WEBPAGE

Users are great about sending questions to our internal Navigate Support Team. When common questions are voiced, they are added to our "Navigate FAQs for Advisors" page.

NEED SCHEDULING ASSISTANCE?

Remember, your student services team can assist you in rescheduling appointments in Navigate. But if you find students are having difficulty scheduling with you, don't forget to check your Availability! You may need to update your current services or active dates.

USER SPOTLIGHT: RJ SWEENEY, SENIOR ASSISTANT REGISTRAR

RJ Sweeney has joined UVM's EAB-Navigate Support Team! RJ will be critical as the team pilots new initiatives to expand use of Navigate across campus.

NEW FEATURES INCOMING!

You probably know by now Navigate is always changing! Our partners at EAB are in the process of implementing a number of new features to enhance user experiences and bolster student support. Our internal advisory committee and Navigate user knowledge group will explore possible changes to UVM's use of Navigate over the summer.

One forthcoming feature is the **positive alert**! No longer will users be limited to making referrals or noting student concerns; soon you will be able to pass along your kudos to students with a simple click.

Finally, referrals to **Student Accessibility Services** are now live. These alerts are routed directly to Sharon Mone in SAS. Please contact StudentSuccess@uvm.edu for more information regarding use of SAS referrals.
