

Searching for a Room

When looking for a room/location in UVMClick, you will see the following view.

The easiest way to find the room you are looking for is to start typing the room number (not the building) in the text box indicated above. If there is a letter in front of the room number be sure to include it.

Searching for a Building

Anywhere within the UVMClick-IACUC system that asks for a location will produce a popup list of buildings and rooms.

To look solely for a building:

Click the column heading called "Facility Type" TWICE

Building names come from UVM's facility list. Some have shortened versions and are equated to some more recognizable names as shown below:

BRC	BioResearch Complex
MHF	Morgan Horse Farm
MREC	Miller Research and Educational Center

The UVM building list that has been incorporated into UVMClick can be found under Appendix A on the next page.

If you need to reference a building in your registration/protocol that is not on the list, please contact your RPO Research Analyst to have it added.
