Subject: Reopening Animal Facilities

Hello animal facility users!

We in OACM appreciate your understanding and assistance these past several weeks as we managed the animal facilities at decreased function and with social distancing measures to reduce the risk of coronavirus exposure in our hard-working staff.

We are cautiously prepared to reopen the animal facilities for normal use on **Monday June 1, 2020**. We ask that everyone entering the facilities continue to wear facemasks and practice social distancing to the extent possible.

For animal orders, please contact Keirsten Rapoza (oacm@uvm.edu). [You should be aware that Charles River is offering an incentive of 25% savings on orders placed before June 30, 2020.]

For animal facility questions, please contact Alyssa Frizzell (Alyssa.Frizzell@med.uvm.edu).

For general re-opening questions and concerns, please contact me (ida.washington@med.uvm.edu).

Thank you all in advance.

Ida
