

Waive NR306 for Accelerated M.Sc. Students

Context: Students in the Accelerated M.Ss. program (AMP) start as undergraduate students in one of our RSENr majors. As such, they have taken the required UVM diversity courses, including NR6 and NR207 (except for some transfer students). They have also been exposed to considerable content about diversity equity and inclusion in their other RSENr core and major courses.

Process: In light of the DEI training that RSENr/AMP students receive as undergraduate students, they may waive the NR306 requirement when they transition to the M.Sc. program.
