Internship Title: Stormwater Program education and outreach staff

Internship Site: The intern will be based with the Stormwater Program at the National Life Campus in Montpelier and will also assist program staff on site visits to industrial facilities across the state. National Life in Montpelier is easily accessible from UVM and Burlington by the GMTA Regional bus service [http://ridegmt.com/wp-content/uploads/Montpelier.pdf].

Description: The intern will assist Stormwater Program staff with outreach and education for regulated industrial facilities across the state. This summer, operators of industrial facilities will be preparing new Stormwater Pollution Prevention Plans in compliance with the Multi-Sector General Permit (MSGP). Accompanied by program staff, the intern will assist operators with identification of stormwater discharge points, water quality sampling, and site map development. Depending on the skillset of the intern, there will be the opportunity to develop educational materials such as informational videos, factsheets, and presentations. This internship provides the opportunity to learn about Vermont stormwater policy and regulation, including stormwater management to minimize pollutant runoff.

Desired qualifications/skills/coursework: The ideal candidate will have an interest in helping Vermont industries prevent stormwater pollution from their facilities. The candidate should have a basic understanding of stormwater flow and pollution prevention concepts. Coursework including fundamentals of water quality and environmental science is desired. Mapping experience, powerpoint development, and an interest in educational video development are a bonus.

Eligibility: Rubenstein students who will have completed their sophomore or junior year by May 2020 are eligible to apply. Students graduating May 2020 are not eligible to apply.

Supervision: Christy Witters, DEC Stormwater Program

Start and End Dates: June 1 to August 15, but dates are negotiable.
