February 15, 2017

Dear Dr. DeStigter and Dr. Deming,

The Society for Pediatric Radiology has five upcoming limited competitions. Each of these five grant categories is limited to one application per eligible department. Eligible departments are diagnostic radiology, radiation oncology or nuclear medicine. The five categories are Seed Grants; Education Projects; Young Investigator; Pilot Award; and Multi-institutional Pilot. See the descriptions at http://www.pedrad.org/Research/SPR-Research-Education-Foundation/Research-Awards#1889456-general-information

The deadline for applications is March 15.

If you either or both of you would like to coordinate the selection of a candidate in any or all of the five categories, please let us know the names of any candidates that you would like to put forth so that we can let the Research Administrators in Sponsored Project Administration know which applicants may move forward.

Let me know if I can be of further help.

Thank you.

Hilda
