There are two options for this practicum experience. Both experiences will provide students with an overview of Financial Aid, Scholarship, and Receivables Administration. How to navigate compliance responsibilities while providing exemplary service. Students will be exposed to the political aspects of higher education finance both internally and at the Federal and State levels.

Students will have the opportunity to observe various leaders and explore how they approach their leadership roles, how to manage a large dynamic operating budget and navigate change.

Option 1: Focus on student loan debt, repayment options and default management, how to keep borrowers engaged and aware of their repayment responsibilities to support them in successfully repaying their loans and increasing awareness of options available to them if they encounter difficulty.
