

GOAL ONE: Graduates will be clinically competent.

Outcome	Assessment Method	Benchmark	Time frame	Responsible	2017	2018	2019	2020	2021	\bar{x}	Action Plan	
1A. Students will demonstrate competency positioning patients for accurate radiation therapy treatment	I. Clinical Practica II, III, & IV (RADT 174, 223, & 274, resp.) overall average for all graduates. Students will score $\geq 75\%$ "C" in RADT 174, $\geq 78\%$ "C" in RADT 223, & $\geq 80\%$ "C" in RADT 274	Average of 3 clinical practica $\geq 77.67\%$. ^{1,2}	Annually after termination of spring semester	Program Director & Course Instructors	9/9	88.46	7/7	88.67			88.57	Continual evaluation
				Outcome met?	Yes		Yes					
1B. Students will integrate didactic and clinical course work to provide appropriate patient care.	I. Essentials of Patient Care (RADT 244) final course grade.	Students will score $\geq 75\%$ "C" in course. ^{1,2}	Annually after termination of spring semester	Program Director & Course Instructor	9/9	89.75	9/9	88.00			88.88	Continual evaluation
				Outcome met?	Yes		Yes					
1C. Students will integrate didactic and clinical course work to provide appropriate patient care.	I. Clinical Practicum IV (RADT 274) final course grade.	Students will score $\geq 80\%$ "C" in course. ^{1,2}	Annually after termination of spring semester	Program Director & Course Instructor	9/9	90.25	7/7	92.29			91.27	Continual evaluation
				Outcome met?	Yes		Yes					

GOAL TWO: Students will exhibit problem solving and critical thinking skills.

Outcome	Assessment Method	Benchmark	Time Frame	Responsible	2019	2020	2021	2022	2023	\bar{x}	Action Plan
The student/graduate demonstrates critical thinking skills	"demonstrates sound judgement while functioning as a radiation therapists". <i>Response from Question 7-Student Graduate Cohort Survey</i>	Weighted average 4.25 or higher	Survey 1 year after graduating from the program	Program Director or Clinical Coordinator	4.67						Continual evaluation
				Outcome met?	Yes						

	"demonstrates sound judgement while functioning as a radiation therapists". <i>Response from Question 6-UVM Radiation Therapy Program Employer Survey</i>	Weighted average 4.25 or higher	Survey 1 year after graduating from the program	Program Director or Clinical Coordinator	5.0							Continual evaluation
The student/graduate demonstrates problem solving skills	Professional perceptiveness: exhibits logical and thoughtful actions when working with patients and the healthcare team. <i>Response from RADT 274 Treatment Unit Evaluation</i>	Students will score an average of 4.0 (meets expectations). ^{1,2,3}	Annually after termination of spring semester	Program Director or Course Instructor	4.59	4.43						Continual evaluation
	Outcome met?				Yes							
	"demonstrate the ability ot perform the duties requied of a radiation therapy professional". <i>Response from Question 6-Student Graduate Cohort Survey</i>	Weighted average 4.25 or higher	Survey 1 year after graduating from the program	Program Director or Course Instructor	5.0							Continual evaluation
	Outcome met?				Yes							
	"demonstrate the ability ot perform the duties requied of a radiation therapy professional". <i>Response from Question 5-UVM Radiation Therapy Program Employer Survey</i>	Weighted average 4.25 or higher	Survey 1 year after graduating from the program	Program Director or Course Instructor	5.0							Continual evaluation
Outcome met?				Yes								

GOAL THREE: Students will communicate clearly and effectvely with faculty, patients and clinical staff.

Outcome	Assessment Method	Benchmark	Time Frame	Responsible	2019	2020	2021	2022	2023	\bar{x}	Action Plan
---------	-------------------	-----------	------------	-------------	------	------	------	------	------	-----------	-------------

Students/graduates will communicate clearly and effectively with faculty, patients, and staff

Students/graduates will communicate clearly and effectively with faculty, patients, and staff	"communicate and interact effectively with patients in the clinical environment". <i>Response from Question 13-Student Graduate Cohort Survey</i>	Weighted average 4.25 or higher	Survey 1 year after graduating from the program	Program Director or Clinical Coordinator	5.00							Continual evaluation	
					Outcome met?	Yes							
	"communicate and interact effectively with patients in the clinical environment". <i>Response from Question 12-UVM Radiation Therapy Program Employer Survey</i>	Weighted average 4.25 or higher	Survey 1 year after graduating from the program	Program Director or Clinical Coordinator	5.00								Continual evaluation
					Outcome met?	Yes							
	"communicates and interacts effectively with other professionals in the clinical environment". <i>Response from Question 14-Student Graduate Cohort Survey</i>	Weighted average 4.25 or higher	Survey 1 year after graduating from the program	Program Director or Clinical Coordinator	5.00								Continual evaluation
					Outcome met?	Yes							
	"communicates and interacts effectively with other professionals in the clinical environment". <i>Response from Question 13-UVM Radiation Therapy Program Employer Survey</i>	Weighted average 4.25 or higher	Survey 1 year after graduating from the program	Program Director or Clinical Coordinator	4.83								Continual evaluation
					Outcome met?	Yes							
"Interpersonal Skill: Establishes a rapport with patients, gaining their confidence and making patient feel at ease. Interacts in a pleasant, courteous, friendly manner with all staff and patients". <i>Response from RADT 274 Treatment Unit Evaluation</i>	Weighted average 4.25 or higher	Survey 1 year after graduating from the program	Program Director or Clinical Coordinator	4.65	4.49							Continual evaluation	
				Outcome met?	Yes
