

Welcoming Statement

Thank you for participating in the 2022 Campus Climate Survey! Your feedback will help inform the University of Vermont's Diversity, Equity, and Inclusion strategic plans and is an invaluable tool for the assessment of the experiences of the campus community members.

Each response will be anonymous and kept strictly confidential. The survey asks several demographic questions that will later allow for analysis comparing the campus climate responses and experiences of the many identities and groups of people represented at UVM. Individual responses will not be shared with anybody beyond the Office of Institutional Research who will be responsible for analyzing the data.

If you would like additional information about the survey tool, please go to go.uvm.edu/climatesurvey. In addition, if you have any questions, comments, or concerns about the survey, please email CSurvey@uvm.edu.

Please note the survey takes approximately 10 minutes to answer all the questions. If you decide to stop the survey midway and want to continue later, reopen the survey in the same browser. The survey then starts from where you last left it as long as you do not clear the cookies from the browser.
