

ON-CAMPUS RESIDENCE STUDENTS					
VACCINE STATUS	 TESTING REQUIREMENTS	 MASK REQUIREMENTS	 IDENTIFIED AS A <u>CLOSE CONTACT</u>	 SYMPTOMS	 TESTED POSITIVE FOR COVID-19
 <p>You have completed your initial vaccine series and you either (1) received the booster or (2) are not yet eligible to receive the booster. For eligibility status, click here.</p>	<p>Available and as needed or otherwise required⁽¹⁾. On-campus testing is available for all students. Testing is recommended before and after travel, before and after gathering with others, and just for your own peace of mind. Student Health Services or your health care provider may require that you get a test.</p>	<p>Indoors, yes. Outdoors, your discretion. UVM requires masks indoors regardless of vaccine status. See UVM's face covering guidance.</p> <p>Also, there are additional mask requirements for anyone who has completed isolation following a positive COVID test.</p>	<p>Watch for symptoms. If you do not develop symptoms, test⁽²⁾ within 48 hours of exposure and again on day 5 (count day of exposure as day 0). In addition to current mask mandates, you should continue to wear your mask when you are in the presence of others (even if it's not required) and you should limit your contact with others.</p>	<p>SAME REGARDLESS OF VACCINE STATUS</p> <p>Stay home/in your room. If you develop symptoms, please stay home or in your room and immediately call Student Health Services at 802-656-3350. Student Health Services will assess your symptoms to determine next steps. If you are instructed to test, do a soft quarantine⁽³⁾ until you have been cleared by Student Health Services.</p>	<p>SAME REGARDLESS OF VACCINE STATUS</p> <p>Notify Student Health Services and Isolate. You will need to isolate in the designated isolation area for at least 5 days.</p> <p>If you are asymptomatic or if your symptoms have improved, you can leave isolation after 5 days.⁽⁴⁾ You will need to wear a mask around others for the next 5 days even if masking may not be required under UVM guidance.</p> <p>If you are symptomatic, the length of your stay in isolation may be extended if symptoms have not improved by day 5.</p>
 <p>You have an approved exemption (you have not completed your initial vaccine series or you are eligible but have not yet received the booster).</p>	<p>Required every 7 days. Regular testing is required when unvaccinated, not fully vaccinated, or if you are eligible to receive the booster but have not yet received it unless there is an approved testing exemption in place.</p>	<p>Indoors, yes. Outdoors, please "mask-up" if you are in close proximity to others or in a large group. UVM requires masks indoors regardless of vaccine status. See UVM's face covering guidance.</p> <p>Also, there are additional mask requirements for anyone who has completed isolation following a positive COVID test.</p>	<p>Quarantine. Student Health Services will coordinate your transfer to quarantine housing. Testing is required within 48 hours and again on day 5 (count day of exposure as day 0). You will be required to quarantine until you receive a day 5 (or longer) negative test result.</p>		
<p>Day 0 (day of exposure) assumes that the COVID-19 positive person with whom you were identified as a close contact is isolating. If you live with someone who has tested positive or if you are otherwise repeatedly in close contact with someone who tested positive (i.e., a child that you are caring for), your day of exposure is the LAST time you were within 6' or less for 15 minutes or more in a 24-hour period. Repeated contact means that your day of exposure will keep changing until the COVID-19 positive person has completed their 10-day isolation and is symptom free.</p>					

1. Student Health Services or your health care provider may require that you get tested.
2. In the event state's testing timeframes differ from UVM's, follow UVM's.
3. A soft quarantine means to minimize public contact, stay out of class, do not eat in the dining halls (get food to go) and do not gather with others.
4. Without fever for 24 hours AND you are required to have two negative rapid test results taken on two consecutive days beginning no earlier than day 4 of isolation.

VACCINE STATUS	 TESTING REQUIREMENTS	 MASK REQUIREMENTS	 IDENTIFIED AS A CLOSE CONTACT	 SYMPTOMS	 TESTED POSITIVE FOR COVID-19
 You have not completed your initial vaccine series.	Required every 7 days. Regular testing is required at the Davis Center or, if approved, through UVM's preferred vendor when unvaccinated or not fully vaccinated unless there is a temporary exception in place (i.e., approved vacation, positive test result within 90-days).	Indoors, yes. Outdoors, please mask up if you are in close proximity to others or in a large group. UVM requires masks indoors regardless of vaccine status. See UVM's face covering guidance . Also, there are additional mask requirements for anyone who has completed isolation following a positive COVID test.	Quarantine. Contact your primary healthcare provider for additional instruction. Do not come to a UVM facility or location until you have completed quarantine. You can end your quarantine after 5 days if you have received a negative PCR test result taken on day 5 or later (count day of exposure as day 0) or you have received 2 negative rapid tests on 2 consecutive days taken on day 4 or later. If you do not have symptoms , you may schedule an appointment for a test at the Davis Center. See "Symptoms" column if you develop symptoms.	Stay home. If you develop symptoms, please stay home and contact your primary health care provider for further instruction and to arrange for a test. More information on state testing options can be found here or you can get tested at the Jeanne Mance testing site . Do not return to work until you have received a negative test result, and your symptoms have resolved/you are feeling well enough to work.	SAME REGARDLESS OF VACCINE STATUS Notify your supervisor and Isolate. You will need to isolate at home until you have completed a full period of isolation according to VDH Guidance . Isolate, notify your close contacts, and wear a mask when around others after your isolation is complete according to VDH Guidance . Do not come to a UVM facility or location until you have completed your isolation period.
<p>Day 0 (day of exposure) assumes that the COVID-19 positive person with whom you were identified as a close contact is isolating.</p> <p>If you live with someone who has tested positive or if you are otherwise repeatedly in close contact with someone who tested positive (i.e., a child that you are caring for), your day of exposure is the LAST time you were within 6' or less for 15 minutes or more in a 24-hour period.
