Guidance for Visitors and Non-UVM Affiliates for Spring 2021

Updated 02/15/2021

Visitors and non-UVM affiliates refer to anyone who is at UVM without a current UVM NetID. This includes:

- Volunteers without a NetID
- Non-UVM students from other institutions
- Academic and research collaborators, visiting scientists and visiting scholars
- Research participants
- Emeriti faculty
- Alumni
- Prospective students
- Friends, family, and community members

This guidance does not apply to vendors and contractors working on campus. Vendors and contractors must continue to follow the vendor approval process managed by Purchasing Services. No outside vendor or contractor is permitted on campus without prior approval. More information on this process can be found here: https://www.uvm.edu/finance/covid-compliance-essential-suppliers-and-contractors

This guidance does not apply to off-campus UVM retail operations at the Catamount Store on Church Street.

Current status for visitors and non-UVM Affiliates on campus

As of October 20, 2020, all visitors and non-UVM affiliates are restricted from campus and all UVM buildings. On-campus retail operations will only open to the public during student move-in and move-out periods.

Approval Process for Essential Visits

As detailed in Provost Prelock’s memorandum issued in January, only visitors and non-UVM affiliates providing services considered essential to UVM operations will be permitted on campus. These visits require prior approval. Approvals will be granted on a case-by-case basis, and only when these services cannot be performed remotely. The approval process is different based on the nature and purpose of the visit as described in the above referenced memo.

For more information about Spring 2021 operations please email the UVM COVID-19 Information and Service Center at UVM.strong@uvm.edu
