My name is Alex Naumann, I’m a first year from Richmond, VT, and I’m running for SGA Senate. As an EMT and paramedic student, I know the importance of competency, decisiveness, and empathy. As an Eagle Scout, I know the importance of character and how to lead. And as a future SGA senator, I know the importance of fighting for your values.

If elected, I will fight to:

- **End UVM’s support of the prison-industrial complex** by removing Sodexo from UVM’s dining services
- **Ensure easy access to safe abortions on campus** by requiring Student Health Services to provide abortion procedures through the abortion pill, a procedure experts agree is safe and university health centers are fully equipped to provide. Reproductive rights are human rights and it’s everyone’s responsibility to protect them everywhere we can, regardless of sex, gender identity, or religious beliefs
- **Ensure access to our national democracy** by making Election Day a University wide holiday to allow students, faculty, and staff adequate time to participate in and celebrate our national democracy
- **Make UVM’s policies and practices reflect of the values of the student body**

Elections matter. From the presidency and congress, to local officials and student government, our votes determine our rights and liberties and those of people who do not have the opportunity to vote. Your participation in democracy matters, to you, to me, and to all those people who have not been given a voice. Thank you for taking the time to vote, if I earn your vote, I promise to continue the fight.

Sincerely,

Alex, your future SGA senator
