Abigail Berkowitz for UVM Senate

GOALS

SUSTAINABILITY

ENGAGEMENT

COMMUNICATION

Hey! I'm Abigail!
I am a rising junior environmental science major and wildlife biology minor. I have been a part of the SGA for 3 semesters and I became Chair of the Committee on the Environment this semester!

Next year, I hope to continue my work on the Committee on the Environment. I hope to continue working with the administration on creating a more sustainable UVM, engage with students to hear what you want to see change, and provide frequent and transparent communication to the student body on important sustainability updates.
