Vote River Collins

TRASH CANS ON CAMPUS NOW!

About me:
- I live in Montpelier, Vermont and love the outdoors, politics, and playing tennis!
- In high school I was actively involved in Student Government, Debate Club, mental health initiatives, and racial equity groups. While participating, I gained lots of experience representing the student body to an administrative body because I would often step up as a leader.

What I want:
- I'm interested in joining the committee on the environment.
- I'm sure we can both agree that the lack of trashcans on campus is irritating but it’s also a labor and environmental issue. The litter on campus is concerning but also campus staff has to pick it up.
- If I'm elected I will work with the rest of the senate to make sure trashcans are placed strategically on campus for the convenience of all.
