Goals

Be to voice for clubs that feel unheard

- I want to make the link between SGA and student clubs on campus stronger
- Clubs on campus should not feel alienated from the general student
- One idea is having smaller events other than activities fests can help with recruiting and bringing clubs more into the spotlight

Make clubs more accessible to every student

- With the robust amount of clubs on campus, it can be intimidating for SGA
- Creating a more reachable platform than the UVM clubs website like having a club spotlight board in the Davis Center
