

(Picture of myself with my yellow lab, Belle, getting ready to drive from NC to VT)

Platform of Maddie Henson!

Hiya! My name is Maddie but people usually call me Maddog! I am sophomore studying neuroscience and this will be my 5th semester on SGA if reelected. I come from North Carolina and enjoy riding horses, working on cars, and I plan to be an OB/GYN for underserved pregnant people in the future!

- **I work primarily in Indigenous advocacy by:**
 - bringing recognition to the **history of eugenics** at UVM
 - starting a group for Indigenous-identifying people called the **Indigenous People's Collective (@indigenousvm)**
 - creating programming on the concepts of Indigeneity
 - formulating a system/website to bring together **scholarship and internship opportunities** for Indigenous students locally and nationally
- **Other than that, I like to also focus on:**
 - Formulating an action plan to help **gym spaces become more inclusive** for femme-identifying people, trans people, gender queer folks, and other member of **the LGBTQIA+ community**
 - Supporting students who were formerly in the **TRIO/SSS program** and partnering with the Alumni Association to get a streamline of funding
 - Working to **reverse** the budget cuts to the **humanities**, especially when senior administration is paid so handsomely
 - Keep pressure on UVM admin to follow **environmental guidelines** that we hold in high-esteem to **prospective students**

Thanks a bunch for reading my platform and I hope I have your vote!

Thanks, and have a great day :)
