IT'S SIMPLE:

Our current form of representative democracy is a broken system. Our voices are disregarded and the administration and SGA make huge decisions with zero input from students. Direct democracy changes everything. No more anxiously waiting for an email to see if UVM will do the right thing. No longer will a group of 45 students speak on behalf of the entire student body. I'll fight tooth and nail to give the power to the students.

Direct democracy means instead of SGA making the big decisions, we'll hold school-wide votes to let ourselves, the students, run the show.

VOTE FOR ME. VOTE FOR YOURSELF.
