Hi! My name is Maeve Clinton, and I am excited to share my platform with you! I am currently a Junior Social Work major with minors in Special Education, Community Development, and Community Entrepreneurship. In addition to my academics, for the 2019-2020 school year, I have served as Director of Senior Week for the UVM Student Alumni Association, a DREAM mentor, Vice President of Administration for Delta Delta Delta, a Facility Operations Supervisor, and have an internship at the Sara Holbrook Community Center Preschool.

I am running for a senate seat on SGA because I want the entire student body to be a stronger and more diverse community, where all voices are heard and represented. I want everyone to feel represented and heard on our campus. I would like to work toward a systematic change in our school administration in a number of areas. Representing the student body would be a great honor to me, and I would go above and beyond so that everyone will feel heard, supported, and important.

My Platform:

Holding individuals accountable for Sexual Misconduct

Too often people report sexual misconduct on campus and not enough is done. Too often people report sexual misconduct on campus and not enough is done, too often sexual misconduct is not reported at all for fear that not enough will be done
Immediately, we should:
1. Advocate for and support students who have experienced sexual misconduct better than we currently do
2. Implement a systematic change for the UVM administration to hold those who commit sexual misconduct accountable
3. Work with and support Explain the Asterisks on UVM campus to ensure that individuals are held accountable

**Improve the Relationship Between UVM FSL and the Greater UVM Community**

Fraternity and Sorority Life on campus cultivates leadership, philanthropy and community service. Without FSL some students would find it difficult to find a community they feel like they fit into on campus.

Together, we can:
1. Work to make Fraternity and Sorority life more inclusive for individuals of all backgrounds.
2. Create forums for open, transparent, and constructive discussion amongst members of FSL and the general student body, enabling FSL to implement changes to better support the entirety of the student body
3. Make community service events that extend to FSL and the greater UVM community

**Have SGA work more closely with the UVM Student Alumni Association**

I think SAA is a huge asset to the UVM campus that could be used to a greater potential. A stronger relationship between SGA and SAA would benefit the entire student body in regards to securing internships, jobs, connection, and overall support. Students would also be able to more clearly see that being a Catamount is a lifelong experience and should not end with commencement

We should:
1. Build ways for students and alumni to connect and establish metrics to show successes and areas of opportunity to ensure maximum effectiveness of such systems
2. Educate the SGA and the student body on the efforts of SAA to connect alumni in order to ensure maximum engagement amongst students and alumni.
3. Acknowledge that closer Alumni involvement can only help SGA, the clubs that SGA support, and all students on campus.
