TWO-STEP PPD REQUIREMENTS

COPIES OF MEDICAL RECORDS/LABS WILL NOT BE ACCEPTED.

2 Step PPD - Tuberculin Skin Test - BCG vaccine does not preclude the need for PPD testing or chest x-ray.

Timeline: PPD placed, then read 48 hours following placement.
Per CDC guidelines, placement of 2nd PPD should be 1-3 weeks after first PPD is read. 2nd PPD should be read 48 hours following placement.

1) Date given: ____________ Date read: ______________ Results (mm): ____________
   circle result: pos neg

2) Date given: ____________ Date read: ______________ Results (mm): ____________
   circle result: pos neg

OR Tuberculin Blood Test

1) Date given: ____________ Circle result: pos neg

IF FIRST TIME WITH A POSITIVE PPD: Please attach copy of radiology report, and list results.

IF HISTORY OF A POSITIVE PPD:
1) Print the TB Symptom Checklist
2) Take the TB Symptom Checklist to your appointment and give to your health care provider to complete

*Please note, depending on your site placement, a chest x-ray and/or annual TB symptom checks may also be required if you have a history of a positive PPD.

Licensed Health Care Provider Attestation

By signing below, I affirm that I am a licensed health care provider. I am aware that leaving any required fields blank will result in the student being unable to progress in his/her major at the University of Vermont.
