Date

**Student Reflective Essay**

Please attach a brief (maximum 500-word) reflective essay discussing your research, scholarly, or creative experience. This is not a research report. Describe your tasks and daily activities, what you learned, and how the project impacted your current studies and/or future career goals. Answer directly: what were the skills that you developed and learning objectives that you met (note: review your original application for inspiration).

Please return this form and the essay to Fellowships, Opportunities, & Undergraduate Research ([four@uvm.edu](mailto:four@uvm.edu)) AS A PDF, or you may deliver a hard copy to the Office. **We also request that you provide a photo of you doing your project** –it will be used for promotional materials; but will never be used in conjunction with your full name.
