

# Lily Hill Farm

Harvest & Drying  
2018

[www.LilyHillCBD.com](http://www.LilyHillCBD.com)

**Setup:**

**40' x 80' room**

**10' high center support wall**

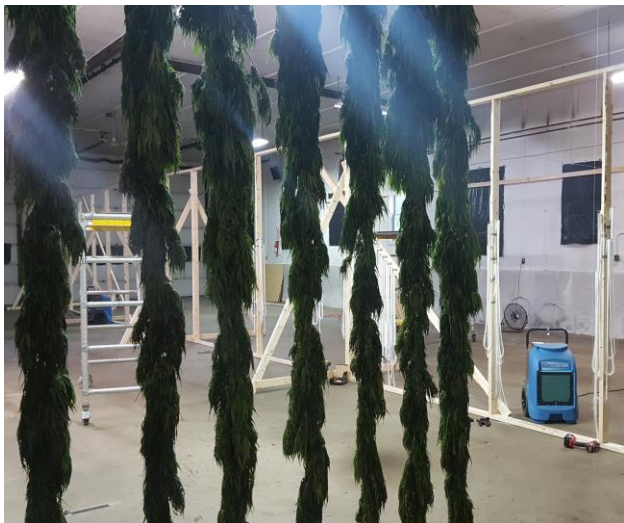

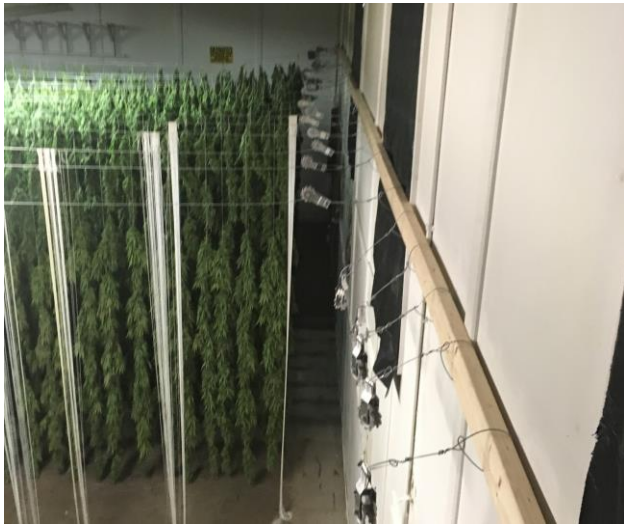

**4 - 16' sections**

- Removing fan leaves
- Stem side down in totes

1 foot spacing between rows, skipping a row every so often to create walking paths.

6-8 inch spacing between lines.

-Grading

-Trimmed flower ready for market

- 16' high ceilings, 6 feet of air space above
- 2 overhead ceiling fans, 8 fans around floor perimeter, 2 in middle row, 1 large exhaust fan as needed
- 2 large dehumidifiers (18 gal/day) \*will be using 6 or 8 this year
- no additional heat, humidity levels were at 70% day one, slowly decreasing to a steady 55% after a few days
