

New Terminology

Whenever switching to a new system, we always encounter some terminology changes. Below are some of the terminology changes you will encounter in the UVMClick system.

UVMClick Terminology	Old Terminology
Study	Protocol
Study Team Member	Key Personnel
State	Status
RNI (Reportable New Information)	Noncompliance/UAP
Proxy	Delegate
Modification (other parts of the study and non-risk safety)	Amendment Request
Modification (study team member information)	Key Personnel Change Request
Withdraw	Pull submission back to fix and re-submit
Discard	Delete
Smartform	Eform
View	Screen
Designated	Expedited
External IRB	Stands for Single IRB
Deferred	Tabled

Other New Terms

Workspace: represents the home page for a protocol

The screenshot shows the UVMClick workspace for a study protocol titled "STUDY00000024: test". The interface includes a navigation menu with options like "My Inbox", "Site Administration", "IRB", "Course", and "Settings". The main content area displays study details such as "Principal investigator: System Administrator", "Submission type: Initial Study", and "IRB office: CHRMS (Medical)". A flowchart illustrates the review process: Pre-Submission (highlighted in orange) leads to Pre-Review, which can result in Clarification Requested, leading back to Pre-Review. Pre-Review leads to IRB Review, which can result in Clarification Requested, leading back to IRB Review. IRB Review leads to Post-Review, which can result in Modifications Required, leading back to IRB Review. Post-Review leads to Review Complete.

Activities: Activities refer to the tasks listed, within a submission, on the left side of the screen.
Examples:

- Assign Primary Contact
- Assign PI Proxy
- Manage Guest List
- Add Related Grant
- Add Comment
- Copy Submission
- View Linkages

Actions: Actions refer to the gray buttons found in the "My Inbox" or also above the listed activities within a protocol.

Examples:

- View Study
- Printer Version
- View Differences
- Create Modification/CR
- Report New Information
