Agronomic benefits of no-till in the field; How technology impacts crops all the way to feed

11 a.m. Paul Cerosaletti, Cornell Cooperative Extension—Benchmarking Program in NY; Precision Feed Management & Monitoring

11:45 a.m. Marty Waterman, Cargill—
Effects from nutrient changes in diets from 1990s to today; Forage analysis from the 1980s vs. today

12:30 p.m. Lunch

1:15 p.m. Scott Magnan, Scott Magnan's Custom Service—Precision agriculture in no-till

2 p.m. Mike Barry, AgModels, LLC. — Dairy Profit Monitor; Feed cost and production benchmarking software program

Join the **Farmer's Watershed Alliance** as we host our second annual Precision Agriculture Forum! This event will showcase innovative tools and farming practices that can be integrated into current farm management systems; and connect farmers and farm managers with the necessary information and resources to adjust practices accordingly.

Topics include: precision feed management, agronomic benefits to precision agriculture technology & no-till, bench-marking system in NY and the Dairy Profit Monitor, results from a 5-year on-farm feeding accuracy study, and more!
