Common Rule 2018 Exemption Changes (PPTX)
No identifiers.

When projects are quality improvement or assessment and do not meet the criteria as research.

11/19/18

DATA MANAGEMENT & SECURITY PLAN

The Research Data Management and Security Plan form is required to be submitted along with all new expedited and full level protocols as well as any protocols where the IRB requires a clearer plan for the protection of data.

Research Data Management and Security Plan (DOCX)

Research Data Management and Security Plan Guidance (DOCX)

Consent Information

2018 COMMON RULE GUIDANCE

A concise summary of study activities, risks, and benefits presented to research participant in advance of the body of the consent form is now required as part of the 2018 Common Rule change for any new protocol or active protocol where subjects are still being enrolled. The IRB will not require re-consent for subjects already enrolled.

Additionally, there are new elements of informed consent that are required as applicable. These can be found in the UVM sample consent template document in BLUE text.

ONGOING CONSENT TEMPLATES

Consent Addendum
To be used anytime you have some additional information for subjects that may affect their willingness to continue participation. Prior IRB review and approval is required.

Consent Addendum (DOC)

Continued Participation After Child Reaches 18 years of age
To be completed with the child who has now turned of age. You must review the originally signed consent with the now adult child and obtain consent to continue their participation. This form does not require prior IRB review and approval unless you need to modify the template.

Continued Participation after Reaching Age of Majority (DOCX)

Related Documents & Resources

DATA USE AGREEMENT

Where faculty are receiving or sharing human subject data as part of a research collaboration, they will need to ensure that an appropriate Data Use Agreement or other form of research collaboration or confidentiality agreement is in place.

Contact spa@uvm.edu for more information.
LIMITED DATA SETS

If the research includes use of a limited data set from the UVM Medical Center, you must enter into a Data Use Agreement with the hospital.

UVMMC REVIEWS PREPARATORY TO RESEARCH

If you wish to review records (not taking any protected health information) to design a research study or assess the feasibility of conducting a study, you must complete this form and forward it to the UVM Medical Center Privacy Officer for approval.

ATTESTATION FOR DECEDEDNT RESEARCH

If your research uses decedent UVMMC PHI, fill this form out and send to Lianne.Cleary@uvmhealth.org.

MODIFICATIONS

This category applies to all protocol changes including safety updates that do not affect risk to subjects, and key personnel changes.

CONTINUING REVIEWS

You will need to Initiate a Continuing Review through the UVMClick – IRB module. This will require that you complete a Continuing Review SMARTForm.

SAFETY - REPORTABLE NEW INFORMATION (RNI)

This category applies to adverse events, unanticipated problems or noncompliance that may affect risk to subjects. Please do not submit Investigator Drug Brochure (IDB) updates or safety updates from the sponsor that do not affect risk, these are modifications.

STUDY CLOSURES

Instructions for Initiating a Study Closure can be found under "User Guides" on the UVMClick – IRB module web page.
