

Animal Use Protocol Amendment Algorithm

Submit completed amendment form and revised protocol pages to IACUC.

The Chair, in consultation with the veterinarian, decides if the amendment is significant or minor.

Significant

For example, large change in #s of animals, increase in invasiveness, change in species, increase in pain or discomfort, change in method of euthanasia

vs

Minor

For example, small change in #s of animals, addition of new personnel, changing route of administration of drug.
