White Chocolate Banana Bread

2 cups all-purpose flour (spoon & leveled)
1 tsp. baking soda
¼ tsp. salt
½ tsp. cinnamon
½ cup unsalted butter, softened to room temperature
¾ cup packed light or dark brown sugar
2 large eggs, at room temperature
½ cup plain yogurt or sour cream
2 cups mashed bananas (about 2 large ripe bananas)
1 tsp. vanilla
¾ cup chopped pecans or walnuts

Adjust the oven rack to the lower third position and preheat the oven to 350°F. Grease a 9×5-inch loaf pan or coat with nonstick spray. Set aside. Whisk the flour, baking soda, salt, and cinnamon together in a large bowl. Using a handheld or stand mixer fitted with a paddle or whisk attachment, beat the butter and brown sugar together on high speed until smooth and creamy, about 2 minutes. On medium speed, add the eggs one at a time, beating well after each addition. Beat in the yogurt, mashed bananas, and vanilla extract on medium speed until combined. With the mixer running on low speed, slowly beat the dry ingredients into the wet ingredients until no flour pockets remain. Do not overmix. Fold in the nuts, if using. Spoon the batter into the prepared baking pan and bake for 60 to 65 minutes. Loosely cover the bread with aluminum foil after 30 minutes to help prevent the top and sides from getting too brown. A toothpick inserted in the center of the loaf will come out clean when the bread is done. Remove from the oven and allow the bread to cool completely in the pan set on a wire rack. Cover and store banana bread at room temperature for 2 days or in the refrigerator for up to 1 week. Banana bread tastes best on day 2 after the flavors have settled together.

Notes: Cream Cheese Frosting: This banana bread also tastes fantastic with cream cheese frosting on top! To make it, beat 4 oz. softened cream cheese and ¼ cup softened unsalted butter together on medium speed until smooth. Beat in 1 cup confectioner’s sugar, ½ teaspoon vanilla, and a pinch of salt until combined. Spread on cooled loaf.

Banana Bread Muffins: Use this banana bread recipe to make 2 dozen banana bread muffins. Pour the batter into a lined or greased muffin pan and bake for 5 minutes at 425°F then, keeping the muffins in the oven, reduce the oven temperature to 350°F. Bake for an additional 16 to 17 minutes or until a toothpick inserted in the center comes out clean. The total bake time for the banana bread muffins is about 22 to 23 minutes. The initial burst of hot air helps those muffins rise nice and tall!

How to prepare a pumpkin:

Whether it is to bake or to eat, preparing your own pumpkin puree is easy.

- Cut the pumpkin in half, from top to bottom (not side to side), then remove the seeds and stringy bits (keep the seeds to toast, if desired).
- Next, place both halves cut side down on an aluminum foil lined baking sheet and place in a preheated oven for about an hour and 15 minutes or until soft. Remove from oven.
- When cool, use a scraper to scoop the flesh from the skin of the pumpkin. Place in a bowl and keep refrigerated until ready to use in recipes, such as pies, muffins or desserts. You can also put some in the freezer; just make sure there’s no air in the containers or bags you freeze. So easy!
